SECOND FLOWING WELL BROUGHT IN BY LEE COMPANY

MINERVA PRODUCTION IN- CREASING RAPIDLY WITH DEVELOPMENT PROGRAM

Probably the outstanding feature in the Milam county shallow field in the past week, was the drilling in of a second flowing well from around the 700 foot level, by the Lee Company. This company is drilling a 1600 foot test on the Neihous tract, in the southeastern part of the proven field, the well off sets one of the best shallow producers in the field, and it was expected that a good well would have to be passed up at the shallow level, casing was in an endeavor to shut off the oil flow but up to date the oil is still coming up around the larger pipe. The well is estimated will make around 50 barrels, some operators say the well would be good for 75 barrels or better. The Lee Company intends to case the oil off if possible and drill to the deeper levels. The well is attracting the attention of the oil clan everywhere.

The S. A. Guiberson, Jr., number one Posey, is drilling again after the casing that was frozen in the hole was removed, then was reamed out to the bottom and the big rotary is going round and round to the lower levels.

The Fredrick C. Nelson test in the vicinity of Sharp, is still rigging up. The machinery is all on the ground and is being placed in position.

The Milam Uplift Oil Syndicate number one Mon Asley in the vicinity of Milano have the derrick built and the crew is waiting for the tools which are expected will be shipped in very soon.

The U. S. Tex Oil Corporation of Dallas and Mexia, one of the largest operating companies in the country, are reported to have entered the field in the taking over of the block of acreage originally blocked up by the Mexia-Milam Oil Syndicate have field men in the county getting the acreage in shape for the deal that has been made for the drilling of a deep well. The acreage in the vicinity of the Posey well, which is southwest of the Branchville company's holdings is in big demand especially the land lying between the two tests.

The Owens Petroleum Company number 9 Henry, is a completion and is on the pump producing better than 10 barrels daily. Number 10, has rig moving on and are rigging up preparing to drill.

Baggett and House number 6 Henry is on the pump and is producing around 40 barrels daily. Number 7 is being made ready for drilling, the derrick has been skidded over to the location, for number six.

Acreage is big demand all over the county, all of the acreage with the exception of a few small blocks that are held by local people, are owned by out side people. There are several blocks being leased for immediate drilling contracts.

CITY WATER TESTS.

Cameron, Texas Oct. 2, 1922.
Editor Herald, Cameron, Texas.
Dear Sir:
Please print the following in your Open Forum.
Miss Lorraine McKinney of Jones Prairie came to Cameron on last Tuesday morning and had Dr. Taylor remove her tonsils.

R. L. BATTE.

LARGE ATTENDANCE AT FAIR

MAYSFIELD SCHOOL IS
OPENED FOR 1922-23.

The school at Maysfield was opened Monday morning with a large attendance from the patrons of the school there being about 40 parents present for the exercises.

The district has under construction a new building and will complete it for occupancy by November 1. The school has the largest enrollment in recent years. Several good talks were made by parents and teachers on the opening day.

The teachers are: Mrs. O. F. Robinson, Principal; Mrs. J. O. Roark, Miss Pardo of Cameron and Miss Road of Rockdale.

PARENT-TEACHERS ASSOCIATION.

On the first Wednesday of October the parent teachers met at the school building.

There was a good attendance. In the absence of the president, Mrs. Howard Baskin, Mrs. Ben Atkinson presided, the first matter of business was the election of a first vice president, Mrs. George Graves was chosen. The ladies discussed at length plans for the winter.

Prof. L. H. Kidd asked to taste through the Cameron press the exact time of morning the pupils must be at school in order not to be tardy. Also the closing hour for each grade so mother's will know if their children return promptly.

It was also decided that the parent-teachers association meet twice each month—the first Wednesday of each month in the old school building and the third Wednesday in the Yoe High.

All parents were urged to aid in this important work.

Mesdames George T. Graves, Wylie Mangum and Miss Gertie Graves spent last Thursday in Temple.

Miss Velda Walker went to Gause Monday where she will teach school this year.

Highest prices paid for seed cotton and cotton seed at the Oil Mill. 23-2t

BAPTISTS TO START REVIVAL MEETING HERE OCTOBER 15

REV. R. C. WHITE, PASTOR, WILL
PREACH DURING TWO
WEEKS CAMPAIGN.

The Baptist church in Cameron will begin a revival meeting on Sunday October 15 with the pastor Rev. R. C. White to do the preaching.

The pastor as moderator of the association is closing the meeting at Burlington and will begin at once to prepare the church for the revival which will last two or more weeks.

L. E. Payne of Abilene first Baptist church who is a graduate in Gospel music from the Southwestern Baptist Seminary will conduct the singing.

Rev. White has been engaged throughout the summer in conducting meetings, the latest one being in Greenburg, North Carolina. His preaching will no doubt bring about a great revival in the church.

TEACHERS EXAMINATION.

The October examination for teachers will be held in Cameron on Friday and Saturday, October 6th and 7th. The schedule of subjects will be the same as in previous examinations.

Very respectfully,

J. F. CHADWICK.

NOTICE TO THE PUBLIC.

All hulls and meal at the Oil Mill office are CASH and I shall have to ask that no one requests us to have anything charged. I find it necessary to do this for the reason that I must pay cash for all seed purchases and I can not afford to employ collectors. Please do not say CHARGE IT.

The Two-Days' Fair and Livestock Show was Attended By Thousands—The Exhibits Splendid—Surpassed Expectations.

The Milam County Fair, which closed last Saturday evening, has been pronounced one of the greatest events of its nature ever staged in Cameron. The two days fair this year was a success from every standpoint. A good exhibit in livestock, poultry and agricultural products made.

The event opened Friday morning with a parade from the City Park to the Ledbetter-Wilson Park, at which place the fair was held. Decorated cars, floats, trucks, tractors and school children, dressed for the occasion, made a most beautiful parade. It is expected that even a bigger and better fair will be held next year.

The parade was judged in the Fair grounds and many cars and floats dropped out before the reached the Park, so they could not be judged. The prizes were awarded as follows:

Best decorated car, Studebaker, Joe J. Michalka.
Second, Mrs. J. D. Dobbins.
Best decorated float, Henne & Meyer (Chas. Price.)
Best decorated Ford, Collins & Mitchell.
Best looking lady driving Ford Coupe, Mrs. S. A. Cottle.
Ugliest man driving Ford car, Bill Storey.
Oldest Ford car in parade, Ralph Clark.
Most diapidated Ford car in parade, M. C. Thompson.

Following is a list of prizes awarded contestants:

BEEF CATTLE.

HEREFORD—

Aged Bull—Paul C. Graves Buck-holts first.
Geo. T. Graves, Cameron, second.
(Continued on page 4.)

Buckholts	194,516.92
Burlington	123,238.02
Ben Arnold	105,337.69
Gause	51,202.14
TOTAL	\$3,024,341.12

WILDCATS DEFEAT CAMERON 36 TO 0.

Temple, Texas, Oct. 3.—The Temple high school Wildcats played rings around the Yoe high warriors from Cameron yesterday and easily piled up a total of 36 points while their lighter opponents were never allowed to get within striking distance of the Temple goal line. The game was played on the Bell County Fair gridiron and was witnessed by one of the largest crowds that has ever witnessed a foot ball game in Bell county.

The Cameron team fought gamely but was outclassed in every department of the game and after the first few minutes of play the supporters of the Red and White realized their task was hopeless and it was only a question of how big a score the Temple team would pile up. McGregor, who was forced out of the game during the last half by injuries, and Joynes, Childress and McCall were the outstanding players in their team's losing fight.

The game was the Wildcats first victory in the interscholastic race and every man on the squad who was in condition to play shared the honors of the day. They allowed the Cameron team but one first down, made in

the third quarter when a pass was completed for 16 yards.

Following are the summary and a record of the game play by play:

Temple Wildcats.....12 6 12 6—36
Cameron Yoemen.....0 0 0 0—0

Touchdowns, George Watters 3, Adrian 1, Howard 1 and McDonald 1. Referee, Moore, Vanderbilt; umpire, Nigro, Baylor; headlinesman, Baker, Southwestern; field judge, Russell, Howard Payne.

Cameron won the toss and chose to defend the north goal. Temple receives. Green kicked off 40 yards; Russell returned 15 yards; George Watters made 4 yards over left tackle;

George Watters hit left tackles for five yards more; Harry Watters hit left tackle for 6 yards and a first down. Captain Jones raced around left end for 21 yards an another first down; Dangeleisen made a yard over left tackle but fumbled, Harry Watters recovering for Temple; a pass, Jones to Russell gained 21 yards; George Watters made a yard over left tackle; Jones thrown for a yard loss on attempted end run; pass, Dangeleisen to Jones gained 2 yards, Jones fumbled, George Watters recovered; Dangeleisen passed 10 yards to George Watters who ran a yard for the first touchdown of the game; Dangeleisen

received bad pass but missed the goal on an attempted drop kick. Score Temple 6; Cameron 0.

Green kicked off 55 yards; Jones returned 25 yards; H. Watters over right tackle for 4 yards; George Watters made 3 yards over right tackle; H. Watters made 2 yards over left tackle. Dangeleisen punted 35 yards, Cameron fumbled, Felder recovered for Temple; Dangeleisen over right tackle for 1 yard; Jones around right end for 5 yards. A pass, Dangeleisen to Durden made 7 yards and a first down; H. Watters fumbled on the next play, Joynes received for Cameron; Childress lost a yard over right tackle; Adrian, Durden and Russell blocked an attempted punt by Watson, Adrian received for Temple and ran two yards for a touchdown; Dangeleisen recovered a bad pass but was downed before crossing the goal line on attempted end run. Score Temple 12; Cameron 0.

Jones kicked off 35 yards; H. Watters downed Green in his tracks; Temple penalized 5 yards for off-side; Childress made five yards over right tackle; end of first quarter. Score Temple 12; Cameron 0.

McGregor made a yard over center. Cameron penalized 15 yards for holding; Childress punted 25 yards; Jones returned 8 yards; Harry Watters failed to gain; George Watters made a yard over left tackle; a pass, Jones to Dangeleisen netted 11 yards; Dangeleisen made 2 yards around right end; Jones fumbled but recovered and was thrown for a 6 yard loss; Dangeleisen passed 16 yards to Jones who ran 10 yards before being downed; George Watters carried ball out of bounds and failed to gain. A pass, Jones to Dangeleisen, netted 9 yards; Tomlin made a yard over right tackle. George Watters plunged a yard over right tackle for a touchdown, Dangeleisen missed a drop kick; score Temple 18; Cameron 0.

Jones kicked off 45 yards; McCall returned 6 yards; McCall failed to gain on the next play; Childress made 5 yards over right tackle; Childress punted 35 yards; Jones returned 10 yards; Dangeleisen punted 55 yards over goal line; Cameron's ball on their twenty yard line; Childress punted 35 yards and Jones returned 30 yards. End of first half. Temple's ball on Cameron's 30 yard line. Score, Temple 18; Cameron 0.

Jones kicked off 60 yards over the goal line; Cameron's ball on their 20 yard line; Childress punted 20 yards. Jones returned 5 yards; Dangeleisen passed 9 yards to George Watters who ran 24 yards and was downed on Cameron's 8 yard line; George Watters made 5 yards over left tackle; Dangeleisen made 2 yards over right tackle; Dangeleisen fumbled but recovered, the ball was on Cameron's 1 yard line; George Watters tore through right tackle for a touchdown. Dangeleisen missed goal. Score Temple 24; Cameron 0.

Jones kicked off 45 yards, McCall returned 5 yards; McCall made 2 yards over right tackle; Watson hit left tackle for no gain; Childress' attempt punt was blocked and Howard recovered and ran 10 yards for a touchdown; Jones missed a try for goal. Score, Temple 30; Cameron 0.

Jones kicked off 60 yards over goal line. Cameron's ball on their 20 yard line; McCall fumbled but recovered for a 3 yard loss; Cameron penalized 5 yards for off-side; Childress punted 31 yards out of bounds; Jones raced 8 yards around right end; Dangeleisen fumbled; Green recovered for Cameron; Childress made 2 yards over right tackle; a pass, Watson to Hefley, netted 16 yards and Cameron's only first down of the game; Watson's second attempt to pass was grounded; McCall made 2 yards over left tackle; pass by McGregor incomplete; Childress punted 25 yards. Jones returned 14 yards; Dangeleisen punted 65 yards; McGregor was downed in his tracks by H. Watters and Heward. End of third quarter, and it was Cameron's ball on her 2 yard line. Score Temple 30; Cameron 0.

Childress dropped behind his own goal line and punted 32 yards; Jones returned 24 yards; Jones made 8 yards around right end; ball was on Cameron's 1 foot line; McDonald brushed left end for a touchdown. Jones missed the try for goal; score Temple

(Continued on page 4.)

BALHORN COMPANY BUYS BUILDINGS ON SANTA FE ROAD

WHOLESALE FIRM ACQUIRES FORMER PROPERTY OF GREEN PRODUCE CO.

Balhorn & Company, wholesale grocers, have purchased the property formerly owned by the Milam County Produce Company on the Santa Fe railroad tracks across from the offices of the Cameron Water, Power & Light Company.

Mr. Balhorn is this week moving into these new quarters which have been overhauled to meet his needs in the stocking of goods and facilitating deliveries.

The Balhorn Company was formerly located in the Commercial Hotel building where for the past two years the firm has carried on a large volume of business.

In addition to the increased rail facilities and convenience in handling its car shipments of merchandise, the company will have more suitable quarters for its business.

BAPTIST HOLD MEETING WITH BURLINGTON CHURCH.

The Milam County Baptist Association held its regular meeting Wednesday with the Baptist church in Burlington. The meeting had been advertised well over the county and was well attended by Baptist from the several churches of the Association.

Among those who attended from Cameron were Rev. and Mrs. R. C. White and a number of the members of the Cameron church.

CHRISTIAN CHURCH.

3rd year girls—Mrs. Paul Medsker.
3rd year boys—S. M. Burns, Jr.

4th year girls—Miss Virginia Vest.
4th year boys—Mrs. Wm. Heider-son.

Richard Vest was appointed board secretary.

Mrs. Dan Gunn was appointed Superintendent Cradle Roll Department.

Mrs. Berth Brewer was appointed for the Home Department.

Teachers in the Primary Department and adult did not change teachers.

**BUSINESS CONGRESS TO
TACKLE FARM PROBLEMS.**

Tulsa, Okla., Oct. 2.—Definite announcement of a few of the subjects to be discussed at the Southwestern Business Congress to be held in this city October 18 to 19 was made today. The program, when completed, will cover a wide range of subjects dealing with practically every industry and business interest in this section of the country.

Of special interest to farmers, stockmen, poultrymen and business men in agricultural communities will be the subject to be discussed by Col. Clarence Ousley of Fort Worth, Texas, assistant secretary of agriculture under the last presidential administration. Colonel Ousley will discuss "Legislation for Agriculture."

"Finding a New Normalcy" will be discussed by Dr. H. J. Waters, managing editor of the Kansas City Weekly Star. This subject is expected to arouse considerable interest among prospective delegates to the congress because of Dr. Waters' special fitness to discuss it.

"The Unstable Dollar and the Economic Depression of Trade" will be discussed by Irwin Fisher, professor of economics in Yale university and one of the best posted men on political economy in the country.

Practical problems of the agriculturalist and stockmen will be discussed by Carl Williams, editor of the Oklahoma-Farmer Stockman, president of the American Cotton Growers Exchange and Southwest Wheat Growers Association. "The Farmer In Business" is the subject of Williams' address. He is thoroughly acquainted with agricultural conditions in this section of the country, having been a farm journal editor for a number of years.

Subjects of the other prominent speakers will be announced in a few days.

YOU ARE CORDIALLY SOLICITED

To visit our interesting and instructive exhibit at the Texas State Fair, Dallas, Waco Cotton Palace, Waco, Houston Fair, Houston, and Louisiana State Fair, Shreveport, La. We want all of our thirty-five thousand and former students, their friends and those interested in education to visit our booths in the Exposition Buildings, and see our wonderful exhibit, which has repeatedly won First Honors at State Fairs in four different states. Our displays are educational and interesting to old and

young. We have demonstrated on the most modern office appliances, all of which are taught in our school, exhibits of students work in Bookkeeping, Business Training, Short-hand, Typewriting, Business Finance, Penmanship, Cotton Classing, Telegraphy and Radio.

Visit our booth and you will see why we have the largest business Training School in America; you will understand clearly how we can make you a more practical and thorough stenographer, in three and one-half months with the Famous Byrne Simplified Shorthand than other schools teaching other systems can in seven months; why with our original copyrighted systems of Bookkeeping and Business Training we can give you a course of both Bookkeeping and Business in less than other schools teaching other systems can give you a mere theoretical course of Bookkeeping; why our practical departments of Telegraphy and Radio, the

largest in the United States, with a loop of the Cotton Belt Railroad train order wire, giving real messages to our students, using every station blank and record book that is used by the Western Union or Cotton Belt, turns out practical operators and station agents; why graduates of our Cotton Department are the most successful Cotton buyers; and why it is that we can place all of our graduates in good positions and have more calls than we can fill.

Write today for catalogue and read what we guarantee to give you, what our former students say we have given them, and what their employers say of their exceptional efficiency. Get the facts and you will soon decide the kind of education you want and the place to get it.

Gin**

WE HAVE THE MACHINERY THAT DOES THE WORK.

We have lately installed these new Super Cleaners at our Round Bale Gin at Cameron and also at our gin in Ben Arnold. These new Super Cleaners attached to each gin stand take out all leaf trash and raise your grade above any other cleaner in Milam county. We have not taken out any of our old cleaning machinery but have installed these additional and at our Round Bale Gin they are on the side that gins your square bales. No other cleaner like ours in Milam county but all gins will have them next season. These are the cleaners that got us cotton enough to cause us to run our Gin No. 2 day and night.

We clean the yard every day and you don't have to wait now. Bring us your seed cotton and cotton seed. We buy every day in the year except Sunday.

R. L. Batte.

AUTO RACES AND FOOT BALL AT THE 1922 COTTON PALACE

Waco, Texas.—Thrills galore will be in evidence during this year's Cotton Palace on the race track and athletic field. Several days of automobile racing, with some of the fastest dirt track drivers in the world, will compete for valuable prizes. Automobile racing has proven one of the popular out-door events at the Cotton Palace in past years, and the program this year is said to be far more thrilling than anything ever before attempted in this part of the country.

Three of the biggest football games of the year will be crowded into the Cotton Palace program. Baylor University, located at Waco, will have a busy schedule ahead, when it meets, during the period of sixteen days, Arkansas University on the first Saturday of the Cotton Palace; Mississippi College on the second Saturday, concluding with the ever popular A. & M. clash on the third and last Saturday of the Cotton Palace dates.

Without doubt, this is the most elaborate schedule of grid-iron classics ever crowded into the brief space of sixteen days.

COMMUNITY CHORUS AT TEXAS COTTON PALACE

Waco, Texas.—A series of community concerts are to be given at the Texas Cotton Palace Exposition, at Waco, each Sunday afternoon and evening, commencing on October 22. The concerts will be directed by Prof. Chas. H. Keep, for some time director of music at Baylor University.

Three concerts will be given each afternoon and three each evening, each lasting approximately one hour. There will be numbers of a nature to appeal to all who love music. The afternoon concerts will be composed of choral selections from the standard oratorios, including Handel's "Messiah" Hadyn's "Creation" and Gounod's "Gallia." There will also be opera choruses from Tannhauser, Lohengrin, and Faust. Some of Waco's favorite singers will be brought in as soloists. It is hoped that the chorus will number close to a hundred soloists. At the final concert, it is planned to sing Gaul's "Holy City," one of the most beautiful of the modern cantatas. For this performance the chorus will be increased to one hundred and fifty voices. There will also be an orchestra or from twenty to twenty-five pieces to play accompaniments at all concerts.

PRESIDENT HARDING NAMES COTTON PALACE PRINCESS

Waco, Texas.—The Texas Cotton Palace has again received recognition at the hands of the chief executive of the United States. In a letter received from the White House by President W. V. Crawford of the Cotton Palace Association, he is notified that President and Mrs. Harding have named Miss Eleanor Wheeler of Washington as princess to represent the District of Columbia at the coronation exercises and queen's ball. In a letter from Miss Wheeler she states that she gladly accepts the appointment and will be accompanied to the Cotton Palace by her mother. Last year President and Mrs. Harding designated one of the popular social favorites as District of Columbia princess, and ex-President and Mrs. Wilson did likewise before they retired from the White House.

With the naming of the District of Columbia representative, fourteen state princesses have been selected. The governors of thirteen states have chosen their princess and all have notified Cotton Palace officials of their acceptance.

The coronation exercises at the Cotton Palace, in connection with the queen's ball, have long been noted as the most brilliant social event in the Southwest, increasing in popularity from year to year. In addition to the out of state princess, duchess representing many towns and cities of Texas, have been appointed to represent Texas in this brilliant social event.

U. S. TEX TO DRILL IN MILAM COUNTY.

One of the interesting events in the development of the Milam county field the past week, was the entry of the U. S. Tex Oil corporation of Dallas into Milam county. This concern, one of the large production in the Mexia field, has taken over the block of acreage in the vicinity of Branchville, northeast of this city. The acreage is located about five miles northeast of the S. A. Guiberson, Jr., No. 1, L. N. Posey well, and north of Little river.

A deep test well was started some time ago by Houston people in this district, but they failed to carry out their contract. The well is to be a deep test and is said to be drilled with cable tools. This is the third new test well to be started in the county within the past month.

The Fredrick C. Nelson No. 1 Laeffere, in the vicinity of Sharp, has a standard rig built and the drillers are rigging up. All the machinery is on the ground. The Milano Uplift Oil syndicate No. 1 Ashley is building a derrick with redwood timber shipped from California. This test is south of the Posey well about five miles.

Baggett & House No. 6 Henry, which came in last week flowing natural from 715 feet, making 72 barrels daily, is being put on the pump and is estimated will produce around 40 barrels. It is the best well that has been brought in in the shallow field. Lee Oil company No. 12 Neihous, semi-deep test, is drilling below the green sand at 500 feet. Much interest is being taken in this test, which is to be drilled to the 1600-2000 foot stratum in the hope of uncovering a second pay sand. The well is located in the heart of the shallow field. The Ryan Petroleum company of Tulsa, Okla., has entered the field and is interested with the S. A. Guiberson, Jr., people who are drilling the Posey deep test below 2400 feet. Acreage is being leased all over the county and several blocking crews are operating in the vicinity. Leases about the drilling wells are in demand.

Advertising is not an expense, it's an investment.

HIGHWAY HAPPENINGS.

The Ben Milam Highway that is under construction between Cameron and the Milam county line, running directly through Milam, is well under way, with several grading crews at work in various places along the regular road. Most fences have been moved back and the misunderstandings that existed between the constructors and the property owners some few weeks ago have been straightened out to some extent and road grading is being carried on at a rapid rate. Hon. C. M. Beard reports that the covering that is to be placed on the surface of the dump that is now being thrown up, will extend six feet to either side, making an ample covering that will hold the sand well in place. It was expected by several who are familiar with the construction of roads that the loose sand would be hard to keep in place, and prevent caving of the bed.

Larger mules have been furnished in order to carry the work on at a faster rate. More working crews, grading and moving of dirt is being had.

666

666 is a prescription for Colds, Fever and LaGrippe. It's the most speedy remedy we know.

CREAM CLEARS A STUFFED-UP HEAD

Instantly Opens Every Air Passage—Clears Throat

If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more hawking or snuffling. Count fifty. All the stuffiness, dryness, struggling for breath is gone. You feel fine.

Rub Rheumatic Pain From Aching Joints

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

666

Cures Malaria, chills and fever, Dengue or Bilious Fever. It kills the germs. 3-20-1f

MINERAL RESOURCES OF TEXAS

"Lemme carry KELLOGG'S, Jack! I say I will! Mother said you could buy KELLOGG'S, but I could carry 'em home! I say I will—I will!"

Our word for it! You'll never know how delicious Corn Flakes can be till you eat Kellogg's

Positively—the most joyously good any-time-cereal any man or woman or child ever put in their mouths! Such flavor, such crispness! Such big sunny-brown Corn Flakes! How you'll relish a generous bowl-filled-most-to-overflowing; and a pitcher of milk or cream!

Never was such a set-out! Never did you get such a universal vote as there'll be for Kellogg's Corn Flakes! Big folks and little folks will say "Kellogg's, please, mother!" Leave it to their tastes—and yours! Prove out all we say!

For, Kellogg's Corn Flakes are a revelation in flavor; a revelation in all-the-time crispness! Kellogg's are never tough or leathery or hard to eat! Insist upon KELLOGG'S—the original Corn Flakes—the kind in the RED and GREEN package!

Kellogg's CORN FLAKES

Also makers of KELLOGG'S KRUMBLES and KELLOGG'S BRAN, cooked and branbled

BELTON HI 0; YOE HI 0.

Lott will be here October 6th.

Last Friday the strong Belton Tigers invaded the camp of the Yoemen intent upon victory. Many believing they would win the game by a big score.

The game opened with the Yoemen kicking off. The first trial went out of bounds but on the second Green sent the ball well down the field and the battle was on.

From the first one could see that it was going to be a fight throughout. Neither team could gain so both began punting with Watson having a little edge on his opponent.

The ball remained near the middle of the field until about the middle of the third quarter when Belton worked it to within scoring distance of the Cameron goal but the Yoemen held and Watson soon sent the ball back down the field out of danger where it remained until the final whistle.

To pick the stars would be a hard job because they all play well, especially the Yoemen line.

Friday October 6th, the fast Lott team will come to Cameron to see what they can do with those Yoemen. Be out there and show your loyalty by rooting your head off for your home boys.

Following is the line up of the teams:

Belton—Caswell, le; Muehlhaus, lt; Franklin, lg; Dobbs, c; C. Higginbotham, rg; Welch rt; Hall, re; Dyer, qb; Southland, lhb; Hallmark, rhb; O. Higginbotham, fb; Keller and Felts, substitutes.

Cameron—Green, le; Yoe, lt; Dusek, lg; Joynes, c; Graham, rg; Agee, rt; Hefley, re; McGregor, qb; Baggett, lhb; McCall, rhb; Watson, fb; Johnson Hearrell and Thompson, substitutes.

EXACT LOCATION OF THE BEN MILAM HIGHWAY.

The Ben Milam Highway has for sometime been under construction. The position the highway was to take through Milano has caused much talk. However, it seems that the engineers did not care to satisfy the wants of the people but placed the location three blocks north of the business part of town. It is said, according to sub-contractors that the exact position the highway will take through Milano has been fully decided upon. The highway leaving Cameron will take the southwest side of the Santa Fe railroad, paralleling it to the edge of Milano, where it will cross the Santa Fe with an overhead crossing, eliminating the usual grade crossing. This crossing will be about two hundred yards above the grade crossing just north of the Union depot. Running in front of the J. D. Peoples, Sr., home keeping that street which carries it on the south side of the Baptist church, and will parallel the International & Great Northern railroad at a two hundred yard distance passing thru the J. H. Burnett, Miss Ella Taylor

and the Dukes properties. After it gets about one mile south of Milano it turns north with an under pass crossing the I. & G. N. R'y, eliminating the regular grade crossing there, and almost due south to the Milam county line, five miles south of here. Byrleson county is to build the highway from there to Caldwell its county seat.

ARREST MEXICANS FOR THEFT.

Deputy Sheriff Neely and Justice of the Peace Peel arrested five Mexicans here Monday afternoon. The Mexicans were en route north, coming from Somerville, where a store had been robbed and several suits of clothes with several hats of the four gallon variety had been taken. The Mexicans were driving a Ford car. Having trouble near here, they had pulled their car in the Farmers Union Garage for repairs. The car was carefully searched but no trace of the stolen goods were found. The five Mexicans were immediately released. No trace of the thieves had been found Tuesday.

To Cure a Cold in One Day

Quit Making Faces At Your Meals!

Ironized Yeast Gives the Stomach Natural Digestive Power!

There's one organ in the human body that "kicks back" when it gets weak, and that's the stomach. No stomach on earth can operate without vitamins-and-iron. The same thing is true about the nerves. There is hardly anything that can happen

Stomach-Power Gone! Ironized Yeast Quickly Builds Up Digestive Power. You'll Relish Your Food!

to the nervous system that is not at once reflected to the stomach. Weak nerves! weak stomach! Nature has only one answer; more vitamins ironized! But remember that Ironized Yeast is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. This is why Ironized Yeast produces almost immediate results in cases of loss of appetite, aversion to food, belching, gas on the stomach, fermentation, "lump-of-lead" feeling after eating, dyspepsia, indigestion. There is only one Ironized Yeast in the world; it contains yeast-vitamins-with-organic-iron, the very natural food-power which every strong stomach and every strong nervous system possesses. The answer is, ironize! vitaminize! Ironized Yeast, is sold at all drug stores at \$1.00 a package. Each package contains 60 tablets, each tablet is sealed. They never lose their power. M'd by Ironized Yeast Co., Atlanta, Ga. Take Ironized Yeast, and you'll enjoy eating, and digest thoroughly everything you eat. That's life!

"THE TEXAS PIONEERS."

The pleasures, hardships and hazardous life of Texas Pioneers is told by Hon. A. J. Rose, himself a Texas pioneer, in the Cameron Herald of the issue of October 12th, Mr. Rose relates, among other stories, the fight between a band of Indians and two pioneers by the name of Will A. Miller and A. W. Morrow, near the San Saba river, in San Saba county. Miller received 23 and Morrow 20 arrow wounds. Both men survived the battle.

YOU CAN'T TRUST

CALOMEL AT ALL.

It's Quicksilver, Salivates, causes Rheumatism and Bone Decay.

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into sour bile like dynamite, cramping and sickening

you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker

than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tonic which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. (Adv)

PEDDY IS BARRED FROM TICKET IN NOVEMBER ELECTION

HOUSTON INDEPENDENT KEPT
OFF UNDER ATTORNEY-
GENERAL'S RULING.

Austin, Sept. 28.—George E. B. Peddy of Houston has no legal right to have his name placed on the official ballot for the November election as the nominee of the Republican party for United States Senator, held the Attorney General's Department late Thursday in an opinion to the Secretary of State, S. L. Staples.

Assistant Attorney General L. C. Sutton, who wrote the opinion, held that the Republican party is required to nominate by primary election, and a convention nominee is void, and Peddy selected by the Republican Executive Committee to fill the vacancy caused by resignation of the convention nominee, has no legal right to have his name certified by the Secretary of State.

The opinion also holds that date of convention of parties of 10,000 to 100,000 voting strength is controlled by article 3159 to nominate candidates for State officers.

The opinion also holds that the certificate showing that the vacancy on the Republican ticket for United States Senator was filled by the executive committee, must be signed by a majority and acknowledged.

"A certificate of this kind, therefore," says the opinion, "signed by the committee chairman only and unacknowledged, is insufficient."

After citing numerous authorities, the opinion continues: "Assuming therefore, that the Republicans had authority to nominate by convention, Mr Peddy would be without a remedy to compel the Secretary of State to certify his nomination, if he voted in the Democratic primary, even though the statutes were complied with as to nominations. It would not follow that he could force the Secretary of State to certify his name as a candidate."

Further, the opinion states: "It should not be seriously contended that the filing of the vacancy is valid unless the original nomination of Dr. Wilmot is not valid there could be no vacancy to fill in the absence of a valid nomination originally."

The opinion does not deal with the remainder of the ticket, only with reference to the office of the United States Senator, which must be by primary election as distinguished from party conventions.

The contention that even if the nomination of Dr. Wilmot was originally illegal, it became valid and incontestable at the time of resignation, since the statutes have provided a means of contesting nominations which have not been availed of, is not sustained by the opinion.

Frank C. Davis of San Antonio, Democratic State chairman, today conferred with Governor Neff and Attorney General Keeling relative to the opinion on legality of Peddy's nomination. It was stated that Davis favored permitting Peddy's name to go on the official ballot without fur-

ther contest.

Certificate of the nomination of Peddy, as Republican candidate for the United States Senate, returned last week to Republican Chairman R. B. Creager by Secretary Staples for lack of signatures of a majority of the State Committee, was received at the Department today with signature of 19 of the 31 committee members. Staples said he would accept the signatures as sufficient but submitted the amended certificate to the attorney general.

HOW TO TELL THE MALARIAL MOSQUITOES.

Do both male and female mosquitoes bite?

No. The female bites. It is doubtful if the male ever bites.

Can you describe the head of a mosquito?

All mosquitoes have a bill and two palpi (palpee), which lie close to it, one on each side. Outside the palpi are two antennae (an-ten-nay) which spread apart. The antennae of the male are peme-like. Those of the female are not.

How then can you tell the male from the female?

The male has "plumes on his head."

How can you tell the Anopheles, malarial-bearing, mosquitoes from the Culex and other kinds in the United States which do not convey malaria.

One way is by their heads. An-

opheles have straight bills and palpi nearly as long as their bills. The female of the other kinds have short palpi, except one kind which has a curved bill. The males of both Culex and Anopheles have long palpi, and one can not tell the species of the males in this way.

Are there any other differences?

The malarial mosquito is slight and graceful. The wings are generally spotted or dusky.

Is there any other difference to note?

Yes. The way of resting on a wall. Anopheles rests in a straight line, frequently standing on her head. The others rest "humped up." This is the only way that can be used to tell the live mosquito, and is the one usually used in practice.

Can you tell something of her habits while feeding—on man, I mean.

She rarely bites in the daytime in the United States. The day mosquito of the South is Aedes (or Stegomyia) Calopus—the yellow-fever mosquito. Anopheles is shy and easily driven off and will rarely bite one who is moving about, hence is most apt to bite one who is asleep. Her bite is less painful than that of other mosquitoes and she does not sing so loudly. On this account, when mosquitoes are much complained of they are rarely Anopheles, and there can be many Anopheles about without much complaint.

Hot Water Each Morning Puts Roses in Your Cheeks

● To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

● If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

I've Got A FREE PUZZLE FOR EVERYBODY MAN, WOMAN AND CHILD SEND FOR IT

Here's something for you—a new puzzle—and say, it's sure a dandy. Wish you could see the big stack I've got piled up here—looks like a mountain. There are thousands and thousands of them—all packed ready for me to put your name and address on, just as soon as you send them.

I want every boy and girl, every man and woman to have one of these Calumet Puzzles. It's more fun than a box of monkeys—the longer you work with this puzzle the more interested you become—the better you like it.

Send for one—see how long it takes you to solve it—spring it on some of your clever friends—see how fast their brains work—see if they can solve a real puzzle.

Don't wait—cut the coupon out of the paper right now; right away—fill in your name and address—send it with a two-cent stamp to help pay postage and mailing cost.

HAVE DARK HAIR AND LOOK YOUNG

Don't Stay Gray. Nobody can tell when you darken
gray, faded hair with Sage Tea and Sulphur

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural

color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through the hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color, and looks glossy, soft and beautiful.

THE CONSPIRACY AGAINST
POLITICAL MORALS.

The post expressed the view a fortnight ago that the nomination of Peddy for United States senator by the republican committee was not legal, and that the attorney general would so hold if the matter was submitted to him for decision.

It required no professional profundity to reach such a conclusion, in the face of the plain provisions of the act of 1913. The attorney general could have rendered no other opinion, unless the law itself were flagrantly unconstitutional, which he does not believe.

The alleged democrats who are so deeply interested in the republican candidate for the senate now have the right to apply to the supreme court for a writ of mandamus, and The Post has no doubt that the court will uphold both the act of 1913 and the attorney general's opinion.

The act of 1913 provides that all party nominations for United States senator shall be made in a primary election. If the law with respect to the nomination for senators differs in some respects from that governing the nomination of State officers, it is in the respect that the newer law is better, and the older law ought to be amended so as to require all party nominations to be made in a primary election, instead of the convention privilege given to small parties.

The republicans polled more than 100,000 votes for president two years ago, and there were surely enough of them last summer to determine their senatorial choice in a primary election. If they defaulted, it was because their organization neglected to do what the law required.

The law did not contemplate such a condition as recently has arisen, in

which the republican machine, conspiring with bolters from the democratic party, has sought to farm out a position on the republican ticket to one who claims to be a democrat and who participated in the democratic primary as a democrat.

No republican right has been sacrificed by the opinion of the attorney general, and the law was never intended to encourage such fraud and trickery as that attempted by the Dallas conspiracy.

The effort of the Creager committee to abuse its authority in an attempt to throw the republican vote to one of another political faith is a species of bossism and trickery that the law expressly prohibits, and its prohibition of such immorality is not Klan influence, but the inherent righteousness of the law.

The whole spirit of the law, as faulty and unsatisfactory as many of its provisions are, is against dirty politics such as the Dallas conspiracy has attempted to inject in the campaign. If those responsible for the treachery and trickery were endowed with anything resembling a sense of proportion they might be grateful that the law has afforded them an escape from their folly, for the public condemnation that the November election has in store for them is certain to teach them a wholesome lesson, if they ever regain sufficient political consciousness to comprehend it.

So far as the people—democrats and republicans—are concerned, they consider the campaign virtually ended, and it is ended except for the noise made by disgruntled politicians who have nothing to do but nurse their own grudges, rave at their own obsessions or revel in the hallucination that what they do, say or think is impressing a commonwealth concerned with the serious affairs of life.

WILLDCATS DEFEAT
CAMERON 36 TO 0.

(Continued from page 1.)

36; Cameron 0.

Jones kicked off 55 yards; Childress returned 14 yards; Childress made 4 yards over right tackle; McCall made a yard over left tackle.

George and Harry Watters threw Childress for a 2 yard loss; Childress punted 50 yards; Jones returned 9 yards; McDonald made 5 yards around right end; Newton carried ball out of bounds and failed to gain; George Watters made 6 yards over center; Jones made 4 yards around right end; Newton made 2 yards over right tackle; Temple penalized 5 yards for having twelve men on the field when the ball was snapped. A pass, Jones to George Watters, gained 2 yards; Jones punted 38 yards with no return; McCall made five yards over right tackle; Childress was thrown for a yard loss; Childress punted 35 yards with no return, pass, Jones to George Watters was grounded; Russell made 3 yards around left end; pass, Jones to Newton, was grounded. End of the game, score, Temple 36; Cameron 0.

U. S. TEX TO DRILL
IN MILAM COUNTY.

One of the interesting events in the development of the Milam county field the past week, was the entry of the U. S. Tex Oil corporation of Dallas into Milam county. This concern, one of the large production in the Mexia field, has taken over the block of acreage in the vicinity of Branchville, northeast of this city. The acreage is located about five miles northeast of the S. A. Guiberson, Jr., No. 1, L. N. Posey well, and north of Little river.

A deep test well was started some time ago by Houston people in this district, but they failed to carry out their contract. The well is to be a deep test and is said will be drilled with cable tools. This is the third new test well to be started in the county within the past month.

The Fredrick C. Nelson No. 1 Laeffere, in the vicinity of Sharp, has a standard rig built and the drillers are rigging up. All the machinery is on the ground. The Milano Uplift Oil syndicate No. 1 Ashley is building a derrick with redwood timber shipped from California. This test is south of the Posey well about five miles.

Baggett & House No. 6 Henry, which came in last week flowing natural from 715 feet, making 72 barrels daily, is being put on the pump and is estimated will produce around 40 barrels. It is the best well that has been brought in in the shallow field. Lee Oil company No. 12 Nelious, semi-deep test, is drilling below the green sand at 500 feet. Much interest is being taken in this test, which is to be drilled to the 1600-2000 foot stratum in the hope of uncovering a second pay sand. The well is located in the heart of the shallow field. The Ryan Petroleum company of Tulsa, Okla., has entered the field and is interested with the S. A. Guiberson, Jr., people who are drilling the Posey deep test below 2400 feet. Acreage is being leased all over the county and several blocking crews are operating in the vicinity. Leases about the drilling wells are in demand.

"THE TEXAS PIONEERS." The pleasures, hardships and hazardous life of Texas Pioneers is told by Hon. A. J. Rose, himself a Texas pioneer, in the Cameron Herald of the issue of October 12th. Mr. Rose relates, among other stories, the fight between a band of Indians and two pioneers by the name of Will A. Miller and A. W. Morrow, near the San Saba river, in San Saba county. Miller received 23 and Morrow 20 arrow wounds. Both men survived the battle.

The
OPEN
FORUM

This column, and more, if the need arises, will be devoted in future to communications from the Herald's readers. Any reader may address a letter to the Editor of The Open Forum, dealing with any subject under the sun, with the assurance that it will be published; provided the name of the writer is signed to the letter. If it is desired, the letter may be published under a fictitious name, but the name of the writer must be furnished to the Herald. Anonymous communications, and abusive or vituperative language will not be published. The Herald assumes no responsibility for the authenticity of the statements or the soundness of the ideas advanced in this column. No charge will be made for publication.

PENNY WISE.

Two or three years ago we had an anti-mosquito campaign in Cameron. We spent some money. During that one summer we received full value for the money spent in the form of better health and more comfort. There were hardly any mosquitos in Cameron that year.

The next year, though Mr. Lenert, the government man, came to Cameron several times and implored us to keep up the anti-mosquito campaign, we decided that it would cost too much money, and our honorable City Council and Commercial Club turned a deaf ear to his entreaties and the arguments of our doctors and many of our citizens. We refused to spend a thousand or two dollars to rid our city of these dangerous pests, and now we are paying the penalty.

The dengue fever that is now so widespread in Cameron is caused solely by the bite of a mosquito. Ask any doctor, and he will tell you also that the dengue mosquito is the same little animal that carries yellow fever.

Already about one-third of our population has had dengue. Luckily, there have been no fatalities; but if there should be, I would hate to think that I had voted against the anti-mosquito campaign. The economic loss caused by the sickness we have already had is many times greater than it would have cost us to have kept up our anti-mosquito campaign to date. And there is not yet an end to the sickness, it will probably be back next year.

Don't you think, Mr. Editor, that we have been "penny wise and pound foolish"? Let's all get together and, though belated, start our anti-mosquito campaign again, and then let's keep it up.

Yours truly,
DENGUE.

Editor, Open Forum,
The Herald.

Dear Sir—Now that you have opened a column in your paper for the expression of the opinions of your readers, I wish to avail myself of the privilege you have so graciously extended, and voice a "kick" that I have been nursing for many months.

I walk. I have no automobile, jitney, horse or jackass. I am the man in the street. I am the fellow who gets run over by some irresponsible, and have to walk on crutches the rest of my life, or get my one great automobile ride to the cemetery. I want to protest the lax enforcement of our laws against speeding, reckless driving, and unnecessary noise. Some of our citizens seem to think that the speed limit is a minimum and not a maximum. They do not think they are moving unless they are making at least twenty miles an hour in the business district, and from forty up, in the residence section. They seem utterly careless of the right of members of the Pedestrians Union to use the street crossings—and careless, even, for that matter, of the right of more careful motorists to use the streets.

There are certain rules of the road that every driver of a car should know. If he doesn't know them, or doesn't observe them, he should be denied the right to drive a car. If nobody knows them, then they should be formulated into a traffic code by our City Council and enacted into law—AND ENFORCED.

Is there any excuse for the chattering, banging and roaring of a car with its cut-out open? A man who once tried to sell me a car told me that the cut-out was only for the use of the use of the garage mechanic to use when testing the motor. (Incidentally I query why should those mechanics be permitted to make tests out in the public street?) An open cut-out is a senseless, useless and unnecessary noise, and should be suppressed as a

nuisance.

There are laws made to deal with these things, laws that can be enforced by our officers, with the assistance of public opinion. If our present laws are insufficient, then they should be strengthened to meet the conditions. It has been a long time since we have had a campaign against the speeders, reckless drivers, and cut-out friends. Now that law-enforcement is the order of the day, why not start enforcing our speed laws?

Just one parting thought: we want our friends from the country to come in and trade with us. Do you think they enjoy being chased across the streets by our local speed-maniacs? Don't you think they would come of tetter if they were assured our streets would be kept safe?

Yours for less haste,
PEDESTRIAN.

CLASSIFIED ADS

FOUND—Purse containing money. Owner may get same by calling at this office and identifying same and paying for this advertising.

LADY WANTED—That can drive a Ford car, can read and write, to live with a family of two. Phone or write 22 2t W. Hanes, Rogers, Texas.

LAND FOR SALE OR TRADE. Milam, Bee, Live Oak Jackson and San Patricio counties. See T. C. STAFFORD, Agent.

ROOM AND BOARD—For rooms apply to Mrs. R. R. Tyson. 17 2t

I have a New Singer hemstitching machine. All hemstitching 7 1-2c per yard. I will surely appreciate your work. Mrs. M. J. Bigger, Buckholts. Box 23. Phone No. 38.

VOLUME 45.

CAMERON, MILAM COUNTY, TEXAS,

THURSDAY OCTOBER 5, 1922.

NUMBER 23.

"AMONG THOSE PRESENT, WE HAVE—"

The rear-seat driver! He's a pest than which there is no than whicher. He causes more discomfort to motorists than all the other possible troubles rolled up in one bundle. Compared with the rear-seat driver, the man who invented blow-outs was a gentleman and a scholar.

This all has particular and personal reference to the man, or woman either, who accepts your invitation to ride in your car and who then abuses and maltreats the right of free speech by directing every movement of your driving. His tongue becomes an accident-prevention bureau for which there is no need; it runs on, its drival punctuated now and then with sharp in-drawings of breath as corners are rounded and other cars are passed. Occasionally, as if to drive home a point, the rear-seat driver gestures his advice with his feet, pressing mightily upon floorboards or the back of the driver's seat when he wishes to stop. He usually wants to stop at the wrong places.

It doesn't seem at all fair that all these coal minors, railway employees and other miscellaneous men who perform really useful work should go on strike while the rear-seat driver goes merrily on. Why couldn't some of this strike serum be injected in him instead of the others? No one would care, thousands would rejoice and the cause of humanity would be helped immensely.

Then, too, millions of dollars are being spent every year for numerous unnecessary things such as bootleg liquor, summer furs, and free verse. Mankind would be made much happier, his health and peace of mind

vastly bettered, if these millions were devoted to supplying every rear-seat driver with a rented automobile for one day so that his motor-owning friends could ask him for a ride and then teach him by example just what a nuisance his kind is.

Man has learned how to find shel-

ter from the elements; indeed, he has conquered them to some extent. There was a time when man defended himself with his two good fists, but society grows more scornful toward this practice as the years wear on. Nowadays it is better form to freeze an enemy with a glance, or to

ignore him entirely, than it is to follow your primitive instincts and pummel him.

But against the rear-seat driver there is no protection. When a motorist invites an acquaintance, out of the goodness of his heart, to ride in his car he is defenseless. If the pass-

enger chooses to assume vociferous responsibility for the safety of the machine and its burden what can be done about it? If the driver ejects him forcibly, he might as well surrender to the nearest policeman; if he commands the pest to be still, he opens the way to all sorts of dire pos-

sibilities, for the rear-seat nuisance is not conscious of wrong-doing and he is sometimes inclined to be vindictive.

One long-suffering driver solved the problem with a set of ear plugs and a heavy rope having a nose at either end. The ear plugs were for himself and the rope for any passengers who developed symptoms of becoming assistant drivers after they entered his car.

The system was simple. At the first outbreak the tools were produced. The driver stopped at the roadside and carefully adjusted the rubber plugs in his ears. Then he slipped one noose in the rope gently over his passenger's head and fastened the other to the offender's feet. From then on he drove in peace. You see, the plugs kept all sounds out of the driver's ears, and the rope effectively checked any footwork the volunteer helper attempted by drawing his head in whichever direction his feet traveled.

Of course, this outfit made no provision for the man who sits in the front seat with you and takes the wheel now and then. A simple means of coping with this would be to bolt a pair of handcuffs to the board panel under your passenger's seat and then slip his wrists through the jaws wherever necessary.

Some automobile clubs have discussed the advisability of establishing black-lists so their members might know whom not to take riding. This plan seems cumbersome however, for it would necessitate the numbering of each citizen so drivers could ascertain by a quick reference to their latest black list just who's who and who's no so much so. And then,

(Continued on page 4 this Sec.)

SUMMER MAGIC

By R. J. McLaughlin

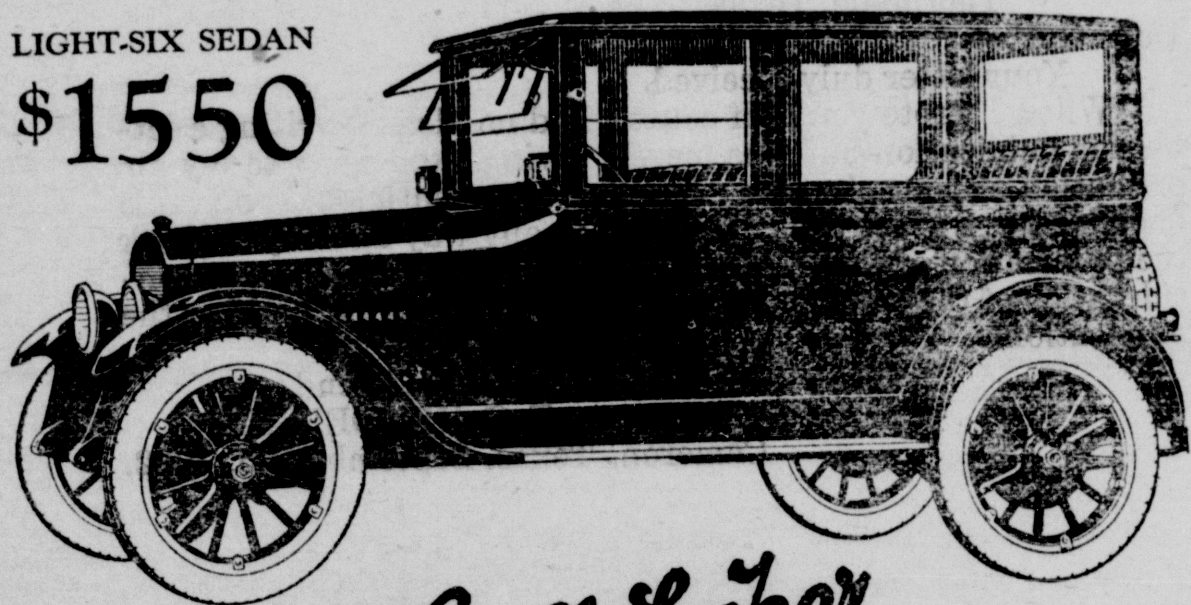

Somewhere there is a classic shade
Where elves with nymphs consort,
And lucky is the man or maid
Who sees them at their sport.

Lithe-limbed strong-bodied, young of face,
These mystic folk repair
Unto that lovely, magic place,
And you may find them there.

There may you watch them at their play,
If well you understand
The magic of the Summer's day
Along the lake's bright strand.

And if this lore you comprehend,
True-learned, long seasons through,
Go join them, they will hail you friends,—
They're city folks like you!

LIGHT-SIX SEDAN
\$1550

Studebaker

Let Us Show You the Difference!

Vibration is destructive. It shortens the life of a car. It takes the pleasure out of riding because it causes rattles, squeaks and other irritating noises.

Vibration is particularly annoying in closed cars.

There is no perceptible period of vibration in the Studebaker Light-Six at any speed. This is due in part to Studebaker's method of machining the crankshaft and connecting rods on all surfaces. No other car, at anywhere near the price, follows this practice.

Lack of vibration and the quiet, smooth-running motor find quick approval from everyone who rides in the Light-Six Sedan.

And every driver is similarly enthusi-

astic over the way it throttles down to a walking gait in high gear—and the quick response that follows the touch of the accelerator.

Aside from its mechanical excellence, the Light-Six Sedan is notable for its sterling coach work. The substantial body, like the chassis, is built complete in Studebaker plants. Materials and workmanship are of highest grade.

Long, semi-elliptic springs and deep, restful, nine-inch cushions afford genuine comfort. Upholstery is of a rich, mohair velvet plush—good-looking and durable.

Today's price is the lowest at which the Light-Six Sedan has ever been sold.

The name Studebaker on your car is the best protection you can have!

Exhaust heater. Eight-day clock. Thief-proof transmission lock. Cowl ventilator. Side coach lamps. Rain visor and windshield cleaner. Inside locks on three doors and outside lock on right-hand front door. Silk roller-curtains. Four doors that swing wide open. Dome light. Mohair velvet plush upholstery.

Diamond Letter-Writing Contest

This will announce the opening of our Diamond Letter Writing Contest, in which 5 prizes will be given away for good letters on why you think Milam County should use Diamond Tires. Contest closes December 1st, 1922.

First Prize—\$10.00 cash.

Second Prize—\$8.00 to be applied on purchase of any tire above 30x3.

Third Prize—\$6.00 to be applied on purchase of any tire above 30x3.

Fourth Prize—\$4.00 to be applied on purchase of any tire.

Fifth Prize—\$2.00 to be applied on purchase of any tire.

NO OBLIGATION WHATEVER—But if you are a user of Diamond Tires and Tubes, you can really and truly more enthusiastically write a better letter why it is best for you to buy and use these splendid tires.

HOW TO WIN THE MONEY—After you have talked Diamond Tires with any of your neighbors (if you are not familiar with Diamond Tires) sit down now and write us a good letter telling us Why You Think Diamond Tires Are The Best For Milam County Motorists To Buy, also Why Is It That There Is More Diamond Tires Used In The Western Desert Country Where Heat Is Intense Than Any Other Make? Do not wait, but write us that letter at once and win one of these prizes. We will not be the judges of the best looking letter, neither the neatest, so do not be afraid to write.

It may develop a latent ability that you have that will be worth money to you. Write us today.

J. T. PARMA

DIAMOND TIRE DISTRIBUTOR.

Milam—the County of Diamonds—Not Stones, But Tires.

THE BUICK MODEL 23-SIX-45.

By A. E. Schiller.

For this season, the Buick five-passenger Touring Car reaches the highest pinnacle of value that it has ever attained. Always mechanically fine, always positive in power and in action, this car may also be singled out for its beauty, its convenience or its comfort.

Riding in this Touring Car, you will be conscious of a new sense of ease. The seating has been rearranged and lowered, so that you sit more securely within the body, with more leg room and more support at back and sides. The new springs with their main leaves of vanadium steel, have less rebound and more resiliency. No top bows obstruct your vision, no side sway disturbs your poise.

Driving, you note that your hands rest more naturally on the lowered wheel, and that a slight movement of the wrist brings the control lever under your fingers. On the dash you have a perfect index to the performance of the motor lubricating system and the generator, together with a speedometer, cowl ventilator adjustment, carburetor choke adjustment, ignition and light controls, with instrument light.

The sides of the body are trimmed clear up under the cowl and a neat carpet covers the tonneau floor. The trimming on the sides of the seats, front and rear, is piped to match the cushions and backs. The tonneau has the addition of a tonneau lamp, and the heel board is covered with carpet. The upholstery on the back of the front seat has been redesigned, with a large compartment for the side curtains, and carries a leather-covered robe rail with nickel mountings. The rear curtain light has been enlarged and the door pockets are both neater and larger.

The windshield is adjusted from the inside, with a new weather strip completely sealing the opening between the upper and lower frames, with a wiper mounted firmly in the upper frame. There are improved side curtains, with increased area of visibility, split lights, and a signal pocket for the driver.

The frame is heavier and lower; redesigned, with a large compartment for the brakes are larger and more powerful; the one-piece crowned fenders are

more serviceable; there is a positive theft lock on the transmission; in the cowl is a new type ventilator, with dash adjustment; headlights and parking lights are of the drum type; running board scuff plates protect the dust apron; new hood catches anchor the hood firmly and prevent rattle; new rear fender wings close the gap between fenders, frame and gasoline tank; handsome, etched plates are on every threshold; not a tack is anywhere visible throughout the upholstery.

With new lines, and with almost lavish refinements throughout, the Buick Model 45 Touring Car matches in beauty, convenience and comfort the fine mechanism upon which its reputation has been built.

2,000 DAILY NEW CHEVROLET OUTPUT.

Not less than 2,000 cars a day will be produced within six months by the Chevrolet Motor Company, according to William S. Knudsen, vice president in charge of operations.

"Additional space is imperatively needed," Knudsen said, "in order to meet the increasing demands for Chevrolet cars."

"We have secured at Buffalo, N. Y., 29 1-2 acres of land about four miles from the center of the city. On it we will erect 400,000 square feet of floor space for Chevrolet production, and the Fisher Body Corporation will erect 200,000 square feet on the same plot for the production of Fisher bodies for Chevrolet. Chevrolet will employ about 2,000 men and Fisher about 1,800. The payrolls will total about \$23,000 daily."

"At Cincinnati, 16 acres have been acquired in the suburb of Norwood, about five and one-half miles from Cincinnati city hall. Here Chevrolet will have 200,000 square feet of floor space and Fisher 150,000."

"Chevrolet will employ about 1,200 men and Fisher about 900 in the production of about 300 cars per day, with a daily payroll of \$14,000."

"The combined production of these new plants, 800 a day, plus present facilities of 1,300 per day, will provide a grand total production of about 2,100 Chevrolets a day as soon as these new plants are on a basis of full operation."

DETROIT HUMS WITH ACTIVITY AS FORD RESUMES.

Detroit, Mich., Sept. 30.—Resumption of operations by the Ford Motor Company has lifted the tension that enveloped the automotive industry since the beginning of the coal strike. The cancellation of order No. 23, which placed automobile plants on the nonessential list, is regarded not only as a victory for Ford, but for the industry in general. The combined efforts of all are believed responsible for the banning of the priority order which threatened to cripple every automobile factory in the country.

With the huge requirements the Fords found themselves hedged in between two forces—a single track railroad left by the rail strike in no condition to function to its capacity and unable to haul the needed coal from the Ford mines in Kentucky and the ruling of the Interstate Commerce Commission that gave priority to railroads and public utilities, classing automobile manufacturers as among the non-essentials.

"Bootleg" coal, that is fuel, that had been slipped through the priority rulings, could be had—at a price. This the Fords refused to pay, and besides the coal was uncertain of quality and much of it could not be used for some of the special purposes of the Ford industries. So while they still had enough fuel to continue their blast furnaces, which could not be allowed to get cool, the Fords ordered the shutdown of their other plants.

Since the order was issued the company has worked almost day and night to make connections that would assure them of a proper and sufficient fuel supply. It was not until after the commerce commission's ruling that this was obtained.

The Ford announcement was telegraphed to 35 assembly plants throughout the country, and 900 messages were sent out to firms supplying the Fords with materials, directing the renewal of shipments.

It was announced that the plants would reopen with orders for 25,000 cars ahead of them.

When the shutdown became effective September 16 the company had been turning out 5,100 cars a day to meet demand of 5,300.

The five-day inactivity has caused

orders to pile up—while the production ceased, the demand did not, it is said. When the department heads begin operations tomorrow, they will be confronted with the problem of making up for lost production.

MINERAL RESOURCES OF TEXAS

Under the title of "Mineral Resources of Texas," our Magazine Section, to be issued October 12th, gives in detail the valuable building materials of Texas, such as red and gray granite, marble, limestone, sandstone, clay, lime, cement, gypsum, sand, gravel, etc.

PUT CREAM IN NOSE AND STOP CATARRH.

Tells How to Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane,

and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable. (Adv.)

Post Office Filling Station

Gas, Oil, Free Air and Water. Tires, Tubes.

Full line of Accessories. The best for the least money.

Two Open Letters From One of Milam County's Most Honored and Honorable Citizens

Mr. Gus Newton,
Thorndale, Texas.

Dear Gus:—
Your letter duly received.

When I wrote you I, of course, had no idea of writing a letter for publication but was merely giving expression to my appreciation of your circular. However, my sentiments on this question have never been concealed in any way and if you think the publication of the letter would contribute to the proper consideration of the question I have no objection to your making the publication.

Very truly your friend,
T. S. HENDERSON,
Cameron, Texas, September 25, 1922.

Mr. Gus Newton,
Thorndale, Texas.

Dear Gus:—
I have just received a copy of your circular which I read with much interest and pleasure.

I am proud to see young business men like you come squarely up to the responsibilities of good citizenship. Your position is unassailable. No student of history, no patriotic citizen who will for a moment lay aside prejudice and passion, but will agree with you on the Ku Klux question.

I have always advocated patience and forbearance in dealing with our friends who have been misled and entrapped, many of whom I am sure, now realize the embarrassment of their situation and would be glad to extricate themselves but they do not wish to be quitters under fire and for that reason are not yet ready to give up the Klan. However, I still have faith in their second thought and good judgment and believe that they will come back all right in the end.

I think temperate and public expression along the line of your circular will contribute much to this result. Of course we are not going to give up the Democratic Party or its principles to the Ku Klux or any other ism. And we are not going to get out of the party to fight them. We will have to fight it out with them in the Party and I have enough faith in the right to feel sure that we will win.

T. S. HENDERSON,
Cameron, Texas, September 16, 1922.
Very truly your friend,

TIRES
TUBES

Read this about the New Tube:

The McWade Puncture Proof Inner Tube being sold by the Auto Supply Company has been given quite a test on the Jitney line being run by me.

One car equipped with these inner tubes has been running six weeks without a puncture. An ordinary nail can be pulled out and the tube will seal itself without any vulcanizing being necessary. This Tube's value lies not only in the time it saves in repairing punctures but in the additional wear secured from the casings.

These tubes are now being used to replace all my present equipment as their worth has been fully demonstrated.

(Signed) E. G. DRYDEN,
Loredo, Texas.

We are stocking these Tubes and if you need something that is the best come and have us fit your car with these new tubes.

DOLLY'S BIRTHDAY

"Dolly's birthday is coming!"
 "Dolly's birthday is coming! Soon, very, very soon now it will be here."
 And at last it could be said, "Dolly's birthday is here."
 Now you may think that Dolly is a very particularly nice doll, but you are wrong. Your guess would be a very good one, but even the best of guesses sometimes are not right.
 For Dolly is a little girl. Her real name is not even Dolly, so you see how hard it would be for you to guess anything about Dolly.
 Her real name is Margaret, but because she is small and dainty and a great pet and a great favorite she has always been known as Dolly.
 At least that is the name she is called by those who love her very much and who know her very well.
 Her family call her Dolly and it is a very great compliment when one's family finds that only a pet name will do, for a family is very apt to know one very well indeed, oh, so very, very well.
 Yes, it was Dolly's birthday over which there was so much excitement and at last Dolly's birthday had come.
 Dolly's birthday had usually been celebrated at eleven o'clock in the morning, but this year it was to be celebrated at supper time and Dolly was to sit up one hour and a half later than usual.
 It would be such fun to sit up a whole hour, and then a half of an hour besides, beyond the usual bed

"The Packages Which He Had."

time. An hour was nice in itself but that extra half hour would be such fun!
 There would be piano playing and singing and games and fun and then there would be extra nibbles of food, for even though there was to be an unusually good supper, still there would be a little room left by everyone for an extra crumb or so of cake. Not to mention an extra candy. Dolly was to have a cake. And candles too. And around her place there would be flowers and ferns. The candles would burn brightly on the cake. Every single thing would be done to make the birthday a very festive occasion.
 Now, as I've said, the birthday had come at last as birthdays will do. Sometimes they seem rather slow about arriving. They seem to take their time. But it really doesn't matter if they do take their time for they seem to be more exciting when they do that way. The Fairy Wondrous Secrets had been very busy doing up all sorts of wonderful secrets for Dolly's birthday and she was sending them along by the Dream King.
 The Dream King had sat upon Sleepy Time cloud, which is his favorite seat as you know, and he had decided that not only would he call upon Dolly on her birthday, but he would call upon her the night before her birthday, too.
 The packages which he had with him were wonderful.
 In one was Happiness.
 Perhaps you do not know how Happiness can be wrapped up in a package and only the Dream King and Fairy Wondrous Secrets know just how to fix up this package. But it contains many little parts and when these parts are scattered about by the Dream King they take up their abode in a person's room.
 Then, too, they follow a person around, very often, very, very often Happiness finds its way straight to a person's heart and there it stays most contentedly. In another package was Long Life and it was going to follow Dolly about. In yet another was the Key-to-the-Secret-of-Knowing-How-to-Enjoy-Things. That was one of the best packages of all, for that key can unlock so much joy.
 And that key was going to be given to Dolly! All through her life she would know how to enjoy things, not just big presents but all sorts of things about her, such as the flowers and the birds, a garden, and the love of her family and of many friends.
 These were some of the Dream King's packages and he gave them to Dolly. There were presents from her family and her friends and when the candles upon the cake were lighted at supper that very evening everyone felt the candles were burning more brightly than ever.
 And indeed they were. They wanted to be their very brightest in honor of the very bright little Dolly.
 And the "Many Happy Returns" which were wished her were meant indeed. Oh, I can well assure you of that!

HUDSON-ESSEX CUTS FROM \$50 TO \$120.

"The prices of several of the standard motor cars are materially lower today, considering the values put into them, than at any time in the history of the automobile." August Horstman of the Cameron Tire Store, local Hudson-Essex dealer, said Saturday.
 "Ever since the Summer of 1920, when drastic cuts began to be made in all businesses, the automotive industry has been a leader in getting back to prewar values. That the public appreciates this is reflected in the tremendous sales of automobiles this year. Many manufacturers consistently took losses, particularly through slashing large inventories to a value much less than cost, in order to resume business again on former standards of value.
 "Today, two years after this downward level started, many automobile manufacturers are quoting prices which, considering improvements made in the last five years are actually lower than prewar levels.
 "The latest price reduction on both Hudson and Essex cars, made Sept. 22, is the third substantial one that the Hudson Motor Car Company has made within 12 months. In that time, prices of Hudson cars have been lowered from \$170 to \$370 and Essex prices from \$150 to \$250.
 "This really is not a fair statement of reductions, however, since a number of added improvements have been made on various models in both lines within that period.
 "The latest Hudson-Essex reductions were \$50 on all Essex models—phaeton, cabriolet and coach—and \$120 each on the Hudson speedster, 7-passenger phaeton and coach. The super-six sedan price was considerably lowered when the new model was announced in August."

BARBECUE MARKS SPUDDING OF NEW WELLS AT THRALL.

Taylor, Sept. 28.—Nearly every business house in Taylor was represented Wednesday at the big barbecue celebration of the spudding in of the three deep tests begun on that day in the Thrall oil field. The barbecue, was held at Lawrence Chapel, at the site of the McDowell well, where operations were begun.
 The McDowell well is on the A. Alexander farm, better known as the old Tom Smith place, within a hundred yards of Lawrence Chapel. The second well where drilling started Wednesday is the McNeill & McDowell well drilled on the Peter Schram farm one mile from Lawrence Crossing and about the same distance from the McDowell well. The third well spudded in is the Magnolia well on the original Fuchs farm at Thrall. The Magnolia Company now owns practically all the old Thrall field, where it is still operating all of the original wells of

shallow depths, and which are producing more oil now than they did two years ago. All three of the new wells are contracted for a depth of 2,500 feet or more.
 Still another deep test well that will begin this week is that of the Twin City Developing Company of Minneapolis and St. Paul, which begins on the Shelby Phillips farm, three and one-half miles southeast of Thorndale. This well was stopped some months ago at a depth of 2,600 feet and the new contract calls for a total depth of 3,500.

WHITE-HOUSE MOTOR CO. BUYS EQUIPMENT FOR SPEEDING CHEVROLET WORK.

Several thousand dollars has been spent the last few days by the White-House Motor Co., in buying machinery, steel bin equipment, for speeding up the service part of the Company. All of the machinery equipment bought has been standard equipment used by the Chevrolet factory. Parts for the Chevrolet cars is also being shipped in large shipments by the motor company.
 Mr. F. N. Craven, who has lived and been in the garage business at Sharp, for several years has charge of the repair department.

TO DRIVE AWAY YOUR GLOOM.

AFTER THE FIRST COST—WHAT?
 "It isn't the first cost that counts."
 "That's right. You can get a marriage license for a dollar."

YES, HOW DO YOU?

An American in dear old London was bragging about his auto. He ended his eulogy by declaring:
 "It runs so smoothly you can't feel it, so quietly you can't hear it, it has such perfect ignition you can't smell it, and as for speed—boy, you can't see it!"
 "But, my word, old dear," interrupted the Briton, anxiously, "how do you know the bally thing is there?"

RIGHT, BUT WRONG.

"Who had the right of way?" asked the traffic officer after the crash.
 "I did," shouted an angry individual as he crawled out of the wreck of his machine.
 "All right," replied the officer, "brush the dirt off yourself and come with me. You're under arrest for reckless driving."

COMPLETELY "MISSING ENGINE"

That a reputation is sometimes sufficient upon which to run a car, was proved to the entire satisfaction of E. A. Pomers, head of the English department of the Chico State Teachers College, when the professor successfully ran his machine, a popular make, for nearly half of a mile before he noticed that the engine was

"missing."
 "And 'missing' literally," said Powers.
 "I thought that I had run over a boulder just before starting down a long grade," he continued, "and it was not until I endeavored to pick up speed at the bottom of the hill that I noticed anything was wrong."
 Upon examination Powers found that the engine of the car had dropped out, and that the machine had evidently coasted down the hill.—Ex.

WASTING ENERGY.

Herbert had spent the first four years of his life in an apartment house where pets were unknown, but he had had experience with motor cars. So when he was visiting his

aunt, and found the family cat dozing comfortably in the sunny window and purring steadily, he cried, excitedly:
 "Autnie, come quick! That cat has gone to sleep and left his engine running.—Progressive Farmer.

"THE TEXAS PIONEERS."

The pleasures, hardships and hazardous life of Texas Pioneers is told by Hon. A. J. Rose, himself a Texas pioneer, in the Cameron Herald of the issue of October 12th, Mr. Rose re-

lates, among other stories, the fight between a band of Indians and two pioneers by the name of Will A. Miller and A. W. Morrow, near the San Saba river, in San Saba county. Miller received 23 and Morrow 20 arrow wounds. Both men survived the battle.

A Real automobile enthusiast takes as much pride in his tires as he does in his car.

The pride of the builder becomes the pride of the owner.
 The man who drives with Mansfield Fabric Tires is justified in his pride.

Step by step—ply upon ply—from the buying of the materials on through to the intricate and final process of vulcanizing, Mansfield Tires are built by experts.

Their high standard of production is your guarantee.
 Character in tires as well as in men finds its greatest expression in service.

It will be greatly to your advantage to examine the Mansfield Fabric Tires before purchasing. Economy does not lie in the direction of makeshifts. The principal involved in the manufacture of Mansfield Fabric Tires brings a sense of security always appreciated by thoughtful buyers.

Felix Matula & Company

COTTON PALACE WILL OFFER "PASSING PARADES" AS COLISEUM FEATURE

Waco, Texas.—Cotton Palace officials have announced that the chief attraction in the big coliseum for this year's exposition will be "Passing Parades of 1922." In the selection of this attraction, which will be seen afternoon and night the first week of the Cotton Palace, the idea was kept constantly in mind to present to patrons of the exposition a show that will pack the big hall, seating 10,000 people, to its capacity.

A search was made for something different—the kind of show that has never before been presented in this part of the country.

This unusual show, which set all Chicago agog, and is now playing to overflow crowds in San Francisco, presents a cast of 80 people. Included as a part of the program are the famous "Peacock" and "Pearl" dances.

The wide variety of numbers on the program has provided the costumers and masters of color effects with the opportunity to blend into the revue a continuous parade of striking pageantry, which move the beautiful figurantes of the chorus.

Girls in costumes of reconstructed pearls, which vie with the skin in whiteness; colorful nautch dancers; "jazz" steppers who interpret the very latest in modern dancing; dainty ballet girls in their fanciful portrayal of "Milady's Bandbox"; Roman warrior girls in flowing plumes and shining armor all these carry on the bewildering evolutions of the revue. And then there are the girls who emulate peacocks, their brilliant costumes extending more than fifteen feet across the tails, and the Dutch tulip girls in their quaint conceptions.

Through this multi-colored series of features, are carried the singing and dance specialties of the principals. The program moves with rapidity and there are few idle movements permitted on the big stage.

Five matinees have been contracted the first week in order that out of town people may have the opportunity of witnessing this unusual attraction.

FOUR BIG FREE ACTS AT THE 1922 COTTON PALACE

Waco, Texas.—Four big free acts each day during the Cotton Palace Exposition. That is what visitors to the show will see this year, beginning October 21 and concluding November 5. The Cotton Palace has this year contracted for these four big free acts, with the idea in view of keeping "something going" every minute the Cotton Palace gates are open, hence the arrangement for free attractions inside the grounds.

FAMOUS KENNEDY SHOWS AT THE COTTON PALACE

Waco, Texas.—An entirely new line-up will be seen this year on the War Path, or amusement row, at the Texas Cotton Palace Exposition. The famous Con Kennedy shows, known throughout the north and east as among the best and most complete of any similar attractions, will furnish the fun "across the creek." It is the first time that the Kennedy shows have ever visited this section of the state, and the entire assemblage will be new and up-to-date, the same as will be shown earlier in the season at the largest amusement resorts of the country. The War Path grounds will be completely rearranged in order to take care of the huge Kennedy shows.

"BEAUTY OF NATION" AT TEXAS COTTON PALACE

Waco, Texas.—The coronation exercises and queen's ball at the Cotton Palace Exposition this year promises to be more brilliant than ever before. The governors of more than a dozen different states have named princesses to the coronation ceremonies, with assurances from many more that they will take similar action in the near future.

The queen's ball, long known as the most brilliant social event in Texas, will attract the "beauty of the nation" to the

"AMONG THOSE PRESIDENT, WE HAVE—"

(Continued from page 1 this Sec.) too, the necessity of illuminating the numbers at night would involve some little trouble. On the whole, the individual method of treatment in the car appears more feasible.

Consider the plight of the loving young man who promised his betrothed an automobile before their marriage. The world was chockful of bliss for him, his anticipation of the joy of the gift made him a slave to his purpose. The earthly effort that was to be rewarded with funds for the purchase was the essence of happiness to him. The week before the wedding he drove gaily to the home of his beloved in the new car—she fairly bubbled over with sheer ecstasy at sight of it.

The happy couple started for a drive. In the second block a car swung into the road as they did. "Oh, Jim! Do be careful. Why don't you slow down when you see someone coming like that? You know I'm nervous." Gradually the bride-to-be relaxed. Jim was patient and bit his lip. The pair proceeded silently into the open country.

Some time later the maid asked petulantly.

"Why don't you ask someone where we are?"

"Oh, what the deuce difference would it make? Five minutes from now we won't be anywhere near here," was the curt answer.

Last week Jim moved into bachelor quarters. His erstwhile betrothed left for the west coast to recuperate after a nervous collapse.

"Now, always keep to the right of any light you see coming toward you on the road," cautioned the salesman as Pat drove home on his new motor-cycle. Next day he was called to the phone.

"What should I do when I meet two lights a-comin' for me?" It was Pat's voice.

"Keep to the right just the same," answered the salesman.

"An' why didn't ye tell me that yesterday?"

"I tried to drive between 'em last night, but it was on automobile."

2000 CHEVROLET CARS A DAY IS GOAL OF FACTORY.

Wm. S. Knudsen, vice president of Chevrolet Motor Company in charge of operations, announces that work will be begun at once on two important industrial additions at Buffalo and at Cincinnati.

A tract of 29 1-2 acres of land has been secured at Buffalo located at the corner of East Delevan avenue and the Erie R. R., with a frontage of 1650 feet on the Erie and about 300 feet on East Delevan. The property is less than four miles from the center of the city. Buildings will be erected at once, with 400,000 square feet of floor space for the Chevrolet Motor Car company, and 200,000 square feet for the Fisher Body Corporation. Both companies are subsidiaries of General Motor Corporation. Chevrolet will employ about 2000 men at Buffalo and Fisher about 1900, with a daily pay-roll of approximately \$23,000. The plants will produce 500 complete cars daily and every effort will be made to have them operating shortly after the first of the year, in order to meet the increasing demands for Chevrolet cars.

At Cincinnati, a tract of land comprising 19 acres has been acquired. This is located at Norwood, a suburb about 5 1-2 miles from the Cincinnati city hall. There is frontage of 1400 feet on the B. & O. tracks and 1500 on the P. C. C. & St. L. The Norwood buildings will have 200,000 square feet of factory space for Chevrolet and 150,000 for Fisher. Chevrolet will employ about 1200 men and Fisher about 900 in the production of 300 completed cars daily. The daily pay-roll will approximate \$14,000.

"Additional space is imperatively needed," said Mr. Knudsen. "The additional 800 cars a day will be a great help, but additional space is required and is being arranged for as speedily as possible."

"When the present program of Chevrolet expansion is completed, we shall be operating on a very large scale. It will include additions in several States, and the daily production of Chevrolet cars should be 2000 inside of six months from now, to

speak conservatively."

THE ESSEX PHAETON.

Here's another instance of wonderful resale value. The Essex Phaeton was 36 months old when it was sold by E. C. Tew, dealer at Olympia, Wash., for \$765. The delivered price of a new Essex Phaeton in Olympia is \$1295.

The history of this car shows several reasons why Essex cars have such outstanding resale values. Received by Mr. Tew July 16, 1919, it was used as a demonstrator until January, 1920, when it was sold to a prospect who drove it a year and

then turned it in on a Hudson Speedster. After that the dealer used it for some time in advertising. When the "Trail of the Arrow" film reached Olympia, Mr. Tew had the car painted with yellow arrow, SX in red and his name and town in black on each side of the car.

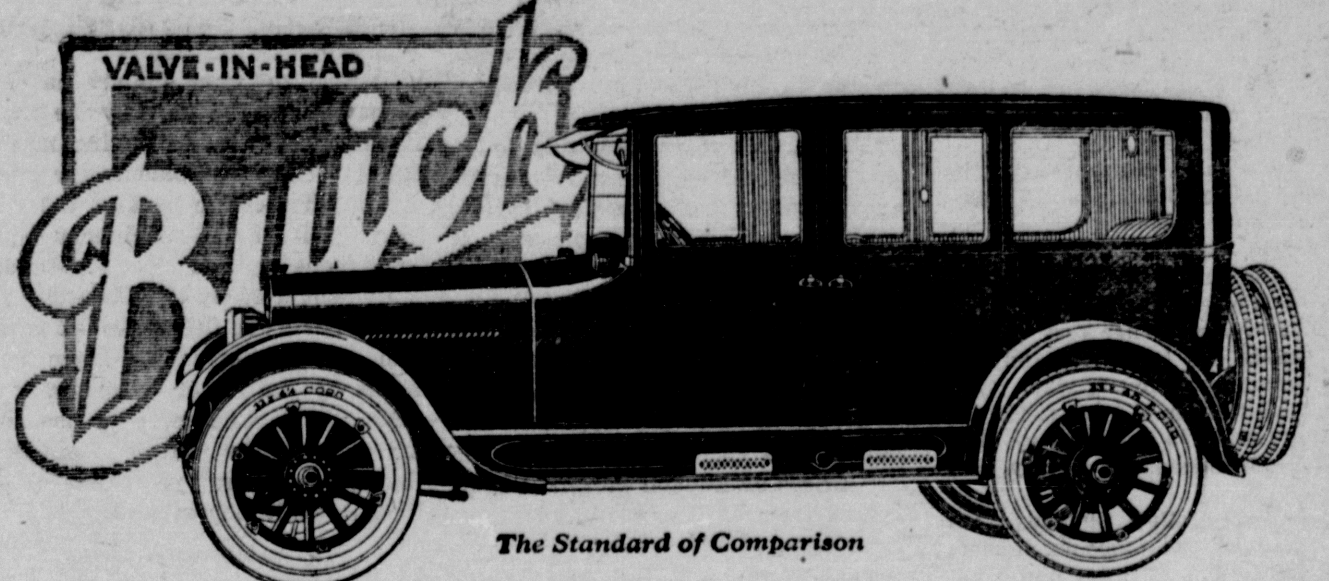

Before being sold, the car was repainted.

46 OF DEALER'S 47 SALES THIS YEAR ARE CLOSED CARS

As an instance of the tremendously fast increasing popularity of closed

cars the country over, the N. R. Rench Motor Sales Co., Hudson-Essex dealers at Piqua, Ohio, report that of the 47 new cars they had sold this year up to September 15, all but one of them were closed cars. Forty-three of them were the rapidly selling Hudson and Essex Coaches, and three the Super-Six Sedan.

As an answer to those who believe that the saturation point for automobiles in this country is at hand, Mr. Rench announces that only 10 trade-ins were involved in the 47 new car sales.

The Standard of Comparison

Closed Car Luxury Unsurpassed The 1923 Six Cylinder Seven Passenger Sedan—\$2195

A dignified beauty and richness unexcelled by any closed car mark the new Buick seven passenger sedan.

Lengthening the body, lowering the top and raising both hood and radiator have improved the streamline appearance made possible by the long wheel base, and added attractiveness has been given by the handsome nicked drum-type head and cowl lamps.

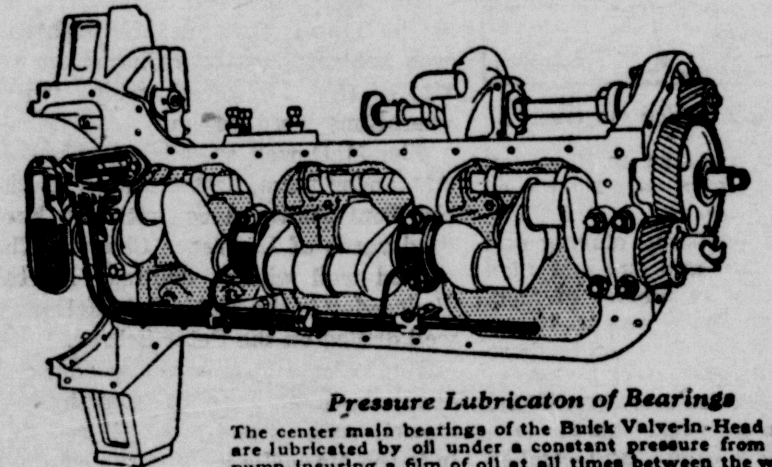

The roomy Fisher built body is furnished in rich plush. Deep cushioned seats

for five with two comfortable folding chairs accommodate seven grown persons with ample room for everyone.

The chassis has been improved materially and its easy riding qualities heightened by a new rear spring suspension.

In the famous Buick Valve-in-Head engine, changes also have been made to increase its dependable performance.

In every detail of body, chassis and power plant, this Sedan has no superiors among closed cars of even greater price.

Pressure Lubrication of Bearings

The center main bearings of the Buick Valve-in-Head engine are lubricated by oil under a constant pressure from a gear pump, insuring a film of oil at all times between the bearing surfaces. The pump also forces a volume of oil directly into the crank case at each connecting rod pocket making certain perfect lubrication of these bearings also.

SOCIETY and Club

By MRS. W. A. GILLON

MISS DELPHYA SCOTT

WILL WRITE SOCIETY.

Miss Delphya Scott beginning next week will have charge of the social department of the Cameron Herald to succeed Mrs. W. A. Gillon who for the past three years has been conducting the society column.

Miss Scott has had newspaper experience and because of her wide acquaintance here will be able to give the patrons of the Herald a society column in keeping with standard of the paper and of the large dailies.

All persons having society items and locals telephone Miss Scott.

MR. AND MRS. JOHN E.

LEE ENTERTAINED.

Last Tuesday evening quite a number of Eastern Star members of the Cameron and Rockdale chapters, motored out to "Cat Tail Ridge," a suburban of Minerva, and were royally entertained at the home of Mr. and Mrs. John E. Lee.

The guests were received by Mr. and Mrs. Lee and were invited to view this charming little home, which is known as a "Lease House." Words fail to describe the beauty and daintiness of the interior. It was lighted with natural gas from one of his many oil wells; and all the comforts and conveniences of a modern city were found there. Later all were invited to the lawn where seats were placed; a beautiful moon shedding its light over all, and each person was given a paper and asked to draw a five pointed star, and to write three of the sweetest words known to the world. A gas jet gave light for trying out one's skill, and was the means of much merriment as to who was the best artist. There were several who upon cutting to see whom should win, the lucky party proved to be Mrs. I. P. Sessions—a dainty powder puff.

Punch was served throughout the evening, and later a delicious salad course was served on the lawn, which consisted of chicken salad, sandwiches, chipped potatoes, olives and pickles. Bricks ice cream with either a red, blue, green or yellow star for centers, with angel food cake and stripped cake with the star colors. Mints were afterwards passed. Each guest was given a pretty pink and white carnation with fern fronds.

All were reluctant to depart from this home where such sweet hospitality and merriment reigned. Mr. and Mrs. Lee were charming host and hostess, and were ably assisted by Mesdames E. Mayes and Velva Crossan.

The following is the personnel of those who enjoyed the evening:

Mr. and Mrs. John E. Lee, Dr. and Mrs. I. P. Sessions, Mr. and Mrs. C. M. Sessions, Mr. and Mrs. E. F. Uusley, Mr. and Mrs. M. L. Meitzen, Mr. and Mrs. H. P. Talley, Mr. and Mrs. L. A. Baxter, Dr. and Mrs. T. D. Roundtree, Mr. and Mrs. John S. Owens, Mrs. Annie Isaacs, Mrs. M. L. Eads, Mrs. J. E. Longmore, Mrs. J. O. Overton, Mrs. Velva Crossan, Mrs. W. E. White, Col. and Mrs. E. Mayes, Miss Mattie Turner, Miss Bettie Brewer, Miss Mabell Turner, Miss Gertrude Howell, Miss Delphya Scott, Mrs. Mattie Shepherd, Mrs. L. S. Bigbee, T. F. Hardy, Fred Sads.

BIRTHDAY PARTY.

Mrs. J. C. Reese complimented her grand niece, Abbie Reese Harvey, last Thursday afternoon with a lovely birthday party.

The porch was decorated in ferns, gladiators and roses.

There were about eighty children who enjoyed the festivities. There were two large white birthday cakes with five pink candles and these stood on a beautifully decorated table and were surrounded with queens wreath. There were quite a number of emblems in each which delighted the children.

Besides the cake, Misses Mary Belle Batte and Abbie Batte served ice cream cones, Abbie was the recipient of a number of gifts suitable for a five year old.

SUNDAY SCHOOL PARTY.

Last Thursday afternoon Mrs. R. D. Brown complimented her Sunday School class with a party. There were eight members and each brought a guest, making sixteen.

Games were played on the lawn and a merry time passed until they were invited to the beautifully decorated dining room. A silver basket filled with queens wreath adorned the center of the table. The girls circled

around and were served delicious cream and cake.

HIGH SCHOOL AND BALL

PLAYERS ENTERTAINED.

Mr. and Mrs. W. A. Morrison threw open their handsome and spacious home last Friday night to the High School pupils.

The home was beautifully decorated with baskets of queens wreath and large receptacles of golden rod.

Mrs. E. A. Wallace assisted Mrs. Morrison in receiving and entertaining the young people. About one hundred of more were present. Dancing, games, etc., passed the time all too quickly.

Delicious punch and sandwiches were served.

PERESBYTERIAN AUXILIARY.

Circle number one met with Mrs. C. F. Mitchell. There were seven present. The leader Mrs. Charles McDermott led a Bible Study.

Circle number two met with Mrs. C. W. Lawrence. There were five present. Mrs. Mary Lankford led the devotional and after that they tackled a comfort.

Circle number three met with Mrs. R. D. Brown. There were four present and a Bible Study was the order of the afternoon, after which sandwiches and tea was served.

METHODIST MISSIONARY.

The ladies met at the church with a good attendance and after the mission study delegates to the District conference were elected.

BAPTIST CONVENTION

AT BURLINGTON.

The Baptist Convention is in session this week at Burlington. The attendance from Cameron was especially fine.

On Wednesday the following ladies drove up in cars and attended:

Mesdames L. L. Blaylock, J. D. Dobbins, J. H. Whaley, George A. Thomas, A. N. Green, R. A. Triggs, Gus Evans, J. G. Vest, Wm. Henderson, J. R. Hays, W. B. Skelton, A. D. Slaughter, H. L. Gunn, Miss Clara Thomas and Rev. and Mrs. R. C. White.

Among other interesting matters taken up Rev. White of Cameron, made a splendid address on the seventy-five million dollar campaign.

A number of delegates went up today Thursday and others are going Friday.

ST. RITA'S CIRCLE.

The St. Rita's Circle met Thursday afternoon in the home of Mrs. B. J. Matocha. Large number of members were present. As this was the first meeting since the summer vacation the time was taken up with formulating plans for fall and winter work.

Mrs. Matocha served ice cream and cake and a pleasant hour concluded the meeting.

The next meeting will be held with Mrs. A. J. Matocha October 12th.

OLD-TIME COLD CURE—
DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM
STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Limber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

Local And Personal

Mayor J. B. White has been confined to his bed for several days with Dengue fever.

CALOMEL GOOD
BUT TREACHEROUS.

Next Dose May Salivate, Shock Liver or Attack Your Bones

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go

back and get your money. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straight-

Grove's Tasteless chill Tonic

restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 70c.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c. Just ask your druggist for HAYES' HEALING HONEY.

Texas History And The People Who Made It

BATTLE OF GONZALES.

The first shot fired for Texas independence was on October 2, 1835, at Gonzales where the Mexicans tried to get a cannon which the people had there as a protection against the Indians. Colonel Ugartechea, commander at San Antonio, knew these people would use the cannon against his troops should war be declared, so he decided to get possession of it. To keep from alarming the colonists, he sent a corporal and five soldiers with an ox-cart for it, but when they refused to surrender it, he sent a captain and a hundred dragoons to take it. Upon arrival he did not feel strong enough to cope with the situation, so he marched up the river and went into camp to await reinforcements. The soldiers spent a pleasant night in raiding a farmer's melon patch, but at break of dawn they were surprised to see a hundred and fifty Texans, under command of Colonel John H. Moore, marching down upon them with the disputed cannon mounted on heavy wagon wheels and pointing toward them in a threatening way. It was loaded with scrap iron and pieces of chain, and at the first volley the Mexicans broke and fled in terror, leaving five men dead on the field. Thus ended the Battle of Gonzales, the first one fought for Texas Independence.

FIRST CONGRESS OF

THE REPUBLIC.

On October 3rd, 1835, the first Congress of the Republic of Texas met at Columbia, Brazoria county. Prior to this the seat of government was at Velasco. The accommodations were very meager, but a commodious residence was used as a state house. It had several large rooms on the ground floor, with a wide hallway between. Two of these rooms were used for the assembly of the House and Senate and other rooms for committee meetings and clerical work.

In consequence of the serious illness of Lorenzo de Zavalla, vice president of the Republic, Senator Richard Ellis, of Red River county, was elected president pro tem of the Senate, and Richardson Scurrey, secretary. In the House of Representatives, Ira Ingram of Matagorda, was elected speaker, and Willis A. Farris, secretary. The next day after the usual notifications from one house to the other and the joint notification to the executive, President Burnet sent in his message.

AGRICULTURAL AND MECHANICAL COLLEGE.

The United States Government during the Civil War offered a large grant of land to each State that would agree to establish and maintain a college for instruction in agriculture and in the art of mechanics. When Texas was re-admitted to the Union, after the war, the legislature, in 1871, voted to accept the offer from the Federal Government, and received a grant of one hundred and eighty thousand acres of land. The school was located on the main line of the Houston and Texas Central railway, four miles south of Bryan, in Brazos county. The first session began October 6th, 1870, with Cooper as the county seat. It was created out of Hopkins county, July 29th, 1870. This county was so named because of its shape so nearly resembling that of the Greek letter, Delta. Its boundaries lie between the two branches of the Sulphur Fork of Red River.

October 4th, 1876, with six students in attendance.

COLEMAN COUNTY.

Coleman county was organized October 6th, 1864 with Coleman as the county seat. It was created by the legislature February 1st, 1858, out of Brown county.

This county was named in honor of Robert M. Coleman, who was born in Kentucky in 1779, and came to Texas in 1832. He acquired experience in fighting Indians in Kentucky, and was appointed Captain of the first company of Texas Rangers ever organized, serving in this capacity on the extreme frontier of Bastrop county and the region north of what is now Williamson and Burnet counties, until 1835, when he resigned to become a member of the Consultation, and in 1836 was elected a member of the Convention from Bastrop, and was one of the signers of the Declaration of Texas Independence. He served as an aide to General Sam Houston at the Battle of San Jacinto. In 1838 he was drowned in the Brazos river at Velasco. Just one year later his widow and son were killed by Indians at their home in Bastrop county.

DELTA COUNTY.

Delta county was organized October 6th, 1870, with Cooper as the county seat. It was created out of Hopkins county, July 29th, 1870. This county was so named because of its shape so nearly resembling that of the Greek letter, Delta. Its boundaries lie between the two branches of the Sulphur Fork of Red River.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROOK QUININE (Tablets) can be taken by anyone without causing nervousness or ringing in the head. F.W. GROVE'S signature on box. 20c

OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Limber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

er 6th, 1870, with Cooper as the county seat. It was created out of Hopkins county, July 29th, 1870. This county was so named because of its shape so nearly resembling that of the Greek letter, Delta. Its boundaries lie between the two branches of the Sulphur Fork of Red River.

EMERGENCY RELIEF FAVORED.

Brenham, Texas, September 30.—Washington, Waller and Austin county schools will receive some \$50,000 less from the state this year than last, according to figures made by Peyton Irving, Jr., former superintendent of the Brenham Public Schools. "The counties has about

17,000 children," said Mr. Irving. "For each they receive \$3 less from the state school fund than in 1921. It is about \$125 less for each teacher employed in the counties this year. As their average pay is considerably less than \$125 a month, school terms will be shortened more than a month or teachers' pay cut.

"Nor is that all. The Rural Aid fund is one-third less this year than in 1921, so schools can not obtain as much from that source. It is also true that valuations have decreased in districts collecting school taxes. The only possible relief is an emergency appropriation by legislature in January 1923 available for the pre-

sent year, according to Miss Frederick Turner, Miss Addie Cammeron and W. S. Smith, superintendents of the

counties. Such action alone, they say, can keep the school of their respective counties open as long as last year."

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

"Our Family Medicine"

"I WILL WRITE you in regard to Black-Draught liver medicine, as I have been using it more than 18 years," says a letter from Mr. S. F. Mintz, of R. F. D. 2, Leland, N. C. "I keep it in my home all the time, for it is mostly our family medicine. When we begin to feel feverish or sluggish, with trouble from the liver or stomach, we take a dose of Thedford's Black-Draught and the trouble is soon over. I mostly buy a dollar package at a time, and it has saved me many a bill."

Thedford's Black-Draught is a

purely vegetable remedy, acting on the liver, stomach and bowels. It is made from selected herbs and roots, and contains no calomel or other mineral drugs.

It has been found of great value, in indigestion, stomach trouble, sick headache, constipation, and lazy liver, helping to relieve the symptoms caused by these troubles, and to put the digestive system into proper working order.

Get a package of Black-Draught liver medicine from your druggist or dealer, today. Be sure to get the genuine—Thedford's.

WHY YOU SHOULD USE A MILD SOAP

Harsh soap dries the natural oils and is apt to irritate the skin and make it scaly.

In the mild, soothing, creamy lather of Palmolive you have an ideal cleanser. It is lotion-like in its action. It soothes while it cleanses.

Artful applications of rouge and powder may lend your skin the appearance of smooth freshness, but when this is washed off, what a cruel revelation!

You can easily possess a fine complexion by giving your skin proper care. Instead of putting your skin to sleep with cold creams and cosmetics, wake it up with soap and water. Cleanse each tiny pore and skin cell, revive sluggish circulation. Get rid of the blackheads which are only accumulated dirt.

Use Palmolive Soap and apply it with your two hands. Massage it thoroughly into your skin and remove with many warm rinsings. This treatment makes your skin fresh as a rose.

You can buy Palmolive Soap at all first class groceries and drug stores.

COMMERCIAL CLUB.

Membership meeting of the Cameron Commercial Club, Friday night, September 29th, 1922.

Roll call showed the following present:

Officers—Robert McLane, president, W. W. Chambers, vice president, W. B. Skelton, secretary.

Directors—J. W. Coleman, Dr. Jas. Watson, John E. Mangum, C. W. Lawrence, H. M. Hefley, C. R. Phillips.

Committee Chairmen—S. P. Cross, Dan Tyson, C. W. Bradberry, W. M. Cobb, J. R. Hayes, W. G. Gillis.

Minutes of previous meeting were read and upon motion adopted.

The crowd being smaller than anticipated it was suggested that the semi-annual election of officers be postponed. Upon motion from J. W. Coleman, seconded by J. R. Hayes the election of officers was postponed until Friday night October 6th, and the secretary instructed to so notify all the members of the club.

Lack of interest in the club was discussed freely and suggestions made as to ways and means to increase attendance, all agreeing that the attendance is nothing near what it should be.

W. M. Cobb announced a good live stock show in progress, with the attendance on same good. He stated that the gate receipts would be about as expected and the show a success. He also suggested that this fall is an opportune time to put over a Fair Association in order to have a real Fair with half mile race track and other such attractions for next year.

NOTICE IN PROBATE.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Milam County—Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Milam county, a copy of the following notice:

THE STATE OF TEXAS.

To all persons interested in the estate of Fred Jorgensen, deceased, Mrs. Flora Strelsky has filed an application in the County Court of Milam county, on the 3rd day of October 1922, for the probate of an instrument in writing filed with said application alleged to be the last will and testament of said Fred Jorgensen, deceased, and for appointment of Mrs. Flora Strelsky as independent executrix without bond of said will which

said application will be heard by said court on the 4th day of December 1922 at the Court House of said County in Cameron, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein Fail Not, but have you before said Court, on the first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Cameron, Texas, this 3rd day of October 1922.

WILL T. YATES, Clerk, County Court, Milam County, Texas. By K. K. Robbins, Deputy 23 2t

NOTICE.

This is to give notice to the public that cotton receipt No. 42708, issued in the name of Huffman & Mackey on the 29th day of September, 1922, by the Cameron Compress Company, for One Bale of Cotton delivered by them to that Company, has been lost, and that the undersigned is the legal owner and holder of said cotton, and the public is warned not to accept said receipt or to deal with same in the hands of any other person.

C. V. HUFFMAN. 23

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 75c.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Milam County—GREETING:

You are hereby commanded to summon Lewis Phillips by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Mi-

lam County, to be holden at the court house thereof in Cameron, on the 13th day of November 1922, the same being the second Monday in November 1922, then and there to answer a petition filed in said court on the 7th day of September 1922, in a suit numbered on the docket of said court No. 8731, wherein Leona Phillips is plaintiff and Lewis Phillips is defendant said petition alleging: a cause of action for divorce, based upon the statutory grounds of 3 years abandonment, and of abandonment and adultery upon part of defendant, and praying for divorce, cost of suit, etc.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 7th day of September A. D. 1922.

PENN WOLF, Clerk of the District Court, Milam County, Texas. 20 4t.

BREAK CHEST COLDS WITH RED PEPPER

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles."

THE BEST IS ECONOMY

More especially on automobiles. You do not want to have your car worked on every week. Bring your car here and you will have a job that will please you as long as the car runs.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

SHERIFF'S SALE.

THE STATE OF TEXAS

County of Milam.

By virtue of a certain Order of Sale issued out of the Honorable District Court of Williamson county, on the 11th day of September 1922, by C. H. Gee Clerk of said Court against Lena Wells Dossett for the sum of Two Thousand Five Hundred Forty Eight and 65-100 (\$2,548.65) Dollars and costs of suit, in cause No. 9274 in said Court, styled W. F. Southern vs. Lena Wells Dossett and placed in my hands for service, I, L. L. Blaylock as Sheriff of Milam County,

Texas, did on the 20th day of August 1922 levy on certain Real Estate, situated in Milam County, described as follows, to-wit:

Lots numbers 15, 16, 17, 18, 19 and 20 in block No. 34 to the City of Cameron, Milam County, Texas, as shown by the map or plat records of said City as duly recorded in Deed Records of said County.

And levied upon as the property of said Lena Wells Dossett, and on Tuesday, the 7th day of November, 1922, at the Court House door of Milam County in the City of Cameron, Texas, between the hours of ten A. M. and four P. M. I will sell said

Real Estate at public vendue, for cash, to the highest bidder, as the property of said Lena Wells Dossett by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Cameron Herald a newspaper published in Milam County.

Witness my hand, this 20th day of September 1922.

L. L. BLAYLOCK, Sheriff Milam County, Texas. By J. R. Robinson, Deputy. 21-3t

By F. W. KAZMEIER.

Readers of the Star-Telegram that are making a start in the poultry business the first year, no doubt will encounter many difficulties. We shall try to discuss these in detail, hoping that the discussion will prove beneficial and interesting.

To begin with, we do not recommend starting on an extensive scale. We do not recommend investing very much capital the first year. We do not deem it wise to start with more than 100 fowls. We have always noticed that nearly always where much money is invested in improvements the first year a considerable portion of it is wasted.

If you are working on a salary we do not recommend throwing up your position; rather, we strongly urge that you hold it and devote your spare time only to studying the poultry business for at least one year, and two years is still better. At the end of that time you will have learned much concerning the business. Among other things you will have experienced difficulties, unthought of and you will have found that the business has its disadvantages. Too many beginners enter the field under the impression that it offers a get-rich-quick opportunity. The sooner beginners recognize this as a delusion, the better. As a general rule, like any other legitimate business, it is necessary to earn every cent made. It takes hard work and attention to details to insure success.

A lazy man or woman will be a 100 per cent failure in the poultry field. It is not possible to make a great success raising chickens by proxy. It is necessary for the owner to be out in the yard with the chickens, and not sitting behind a desk. We are glad to see the time when business men are putting real money into the development of the poultry business, and giving to it their thought and energies. In Texas lately many men of means have started into it, recognizing the fact that it is a real business, full of great possibilities, when operated on business principles, but full of catastrophes when improperly managed. Too many think they can run a good sized poultry farm as a side line. They can run it, but not for the best interest of their bank account.

One of the first things we recommend is that you get acquainted with your flock. This is very important, and the part that many beginners overlook. One of the best ways of doing this is by installing a few trap-nests and looking after them daily. The trap-nest will bring to light many interesting discoveries for the beginner as well as for the expert poultry keepers. The trap-nest means much to the successful poultry keeper. It will soon locate the good as well as the poor layer. It is the Babcock tester of the poultry yard.

The next thing to do is to establish in mind, especially if a beginner, the thing it is wished to accomplish. If contemplating keeping fowls for egg production, a certain standard is

required. If the object is to produce meat, or exhibition fowls, or any combination of these, they all require a different standard to some extent. For this reason the first thing to do is establish in your mind for what object are you going to keep chickens.

At the present time the most money is made keeping fowls for egg production, gradually developing the breeding of chickens for the sale of hatching eggs is limited, while on the other hand the sales of baby chicks is almost unlimited. The production of infertile eggs for eating purposes near a big city always offers great opportunities.

The production of broilers and roasters should be left for the expert poultry raiser, excepting insofar as these may be produced as a side line.

We have noticed that beginners who make the production of market eggs the prime consideration, soon were obliged, by public demand, to branch out into the producing of breeding stock and baby chicks.

Regardless of the object of your poultry venture, however, it is certain that you should establish in your mind some standard to work towards. In West Texas, and Fort Worth especially, the greatest opportunities for the beginner are to start his poultry business along lines leading to the production of infertile eggs for the market. That should be the main object for at least the first three or four years. After that it will be safe to branch out into other lines, like the production and sales of eggs for hatching, eight-weeks-old pullets, breeding cockerels, pedigree breeding stock, baby chicks, broilers, capons and roasters.

The selection of a breed is very important, but not nearly so important as many beginners think. Any of the popular varieties can be kept at a profit, there is no doubt because it is being done every day. We would not recommend such strictly fancy breeds, as Houdans, Frissels, Silkies, Red cops, Polish and many others of a similar type. It is a pretty safe plan to look about you and see the varieties that successful poultry men in your neighborhood are keeping. In making your selection remember one thing, and that is that some breeds are better adapted for the production of eggs than others. The small breeds are more economical egg producers than the large or medium-weight breeds. That is a well established fact. In this article it is not our object to say anything which might lead to a discussion of the merits and demerits of the various breeds and varieties.

Many people when they start into the chicken business are under the impression that "a chicken is a chicken," and one is as good as another. They do not stop to think that there is all the difference in the world between individuals. Some are money makers and some are positive money losers. The beginner should guard against starting with a flock of money losing chickens. The foundation stock may spell the success or failure

of your poultry business. Where are you going to buy your foundation stock? Are you going to make the serious mistake of watching the commission houses for individuals to compose your initial foundation flock? We are sure you know that nothing but culls come to the commission houses. Fowls that have passed their period of usefulness. Good advice is to start where the other fellow left off. In order to do this it is necessary to buy the very best stock you can get. It is much better to save on the cost of the house or the number of birds. I would rather have 10 good birds than a hundred mediocre fowls. It pays to invest in the very best of breeding foundation stock. Let no one persuade you to the contrary.

All breeding stock is valuable according to the merits they possess, based on a standard, vigor, conformation to a standard and the ability to reproduce its kind in equal or better quality. These three heads sum up the qualifications of good breeding stock. A fowl without vigor is worthless. A fowl that does not possess vigor should never be placed in the breeding pen. A fine how bird or wonderful layer becomes worthless

unless these accomplishments are coupled with vigor. We hope that all readers will get this point very clearly. Vigor in the breeding flock is the very foundation of the success of the poultry business. Weak breeding stock means a weak foundation under the entire poultry venture. A bird that scored 100 per cent in vigor, conformed perfectly to the standard to which it has been bred and exactly reproduced itself would be a perfect bird. Up to the present time no such bird has been produced, and we do not think it ever will be produced.

Needless to say, any kind of a poultry undertaking based on mixed or scrub chickens is a shaky business. We do not recall a single successful poultry farm in the United States where scrub "duke's mixture," mongrel or mixed chickens are kept.

This ought to be sufficient evidence. At the present time poultry breeders are breeding to conform to four standards; namely, egg-production exhibition, meat-production and the combined utility and exhibition standard. We are firm in our belief that egg-production can well be combined the same can be applied to the other standards. At the same time, we have breeders that specialize breeding for definite standards separately as mentioned. We have breeders that breed strictly for egg-production, others that breed strictly for exhibition purposes. In your own mind you must establish what you are going to do and then buy the strain you wish to perpetuate and improve. Mongrel fowls of course conform to no standard.

A perfect bird would be worthless, if it did not possess the power to

reproduce itself. So by trapnesting it is not only necessary to locate the desirable individual according to your standard, but it is also necessary to go one step further, to locate the good individuals that have the power to reproduce themselves and transmit their desirable characteristics to the offspring. In selecting our breeding stock first let us judge them for vigor, because that is most important. Second, let us compare the individuals to the standard or a standard that you have adopted as your ideal, whether that be eggs, meat looks or type of these, or all three combined in one bird. The point we wish to make is that you must have an ideal in mind, a standard to go by. In this article we can not undertake to discuss these standards, and what they should be. That we must leave for some future article.

NOTICE To The Public

**TO OUR NEW AND
OLD CUSTOMERS**

We have moved our place of business to the building across the street from the Ice Factory.

Will be glad to have you call on us at our new location any time.

DR. F. B. BEVER FORMER RESEDENT MOVES TO CAMERON

DENTIST AND WAR VETERAN
TO PRACTICE IN CITY AF-
TER LONG ABSENCE.

Dr. F. Burns Bever, dentist, has located in Cameron and will practice dentistry here.

He was born in Cameron and in returning after so long an absence from the county capital, will see many new faces among the citizenship.

Dr. Bever has established offices in the Lawrence building across from the Auditorium Hotel and is this week announcing his opening for business.

Dr. Bever completed his studies in dentistry in Houston, Philadelphia and New York. He went over seas with the 90th Division where he served with distinction.

FREE FOR OUR READERS.

We have made arrangements whereby every housewife who reads this paper can obtain a copy of "Reliable Receipts" absolutely free of charge by simply writing the Home Economics Department of the Calumet Baking Powder Co., 4190-28 Fillmore Street, Chicago, Ill.

"Reliable Receipts" contains 76 pages of recipes and other information appreciated by every housewife. It is illustrated in colors and will prove quite helpful in preparing the daily menu.

We have also made arrangements with the Calumet Baking Powder Co., whereby their Home Economics Department will cheerfully answer all questions pertaining to cooking, kitchen equipment, etc. There is absolutely no charge for this.

Write the Home Economics Department of the Calumet Baking Powder Co., 4190-28 Fillmore St., Chicago, Ill., today for a copy of "Reliable Recipes."

BACK BAD TODAY?

Backache is usually kidney-ache and makes you dull, nervous and tired. Use Doan's Kidney Pills for weak kidneys—the remedy recommended by your friends and neighbors. Ask your druggist!

F. A. Mosley, farmer, 2nd Street, Cameron says: "Doan's Kidney Pills have been a standard medicine with me for many years. Several years ago I was right down and out with my back, and was in such a condition that I could hardly do a thing. My back ached all the time and my kidneys were irregular and the secretions contained sediment, that looked like brick dust and the passages were very painful. I tried several kinds of kidney medicine but the only kind that did me any good was Doan's Kidney Pills. They cured me of the attack. I sure am proud to recommend Doan's Kidney Pills for they are just what is claimed for them."

CALOMEL GOOD BUT TREACHEROUS.

Next Dose May Salivate. Shock Liver or Attack Your Bones

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, con-

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

stipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straight-
